CHINESE WAY

Upon a special invitation of the Polish Chamber of Marine Industry and Water Sports - POLBOAT, the Sunreef Yachts Shipyard as the world's leading producer of luxury catamarans had the honour to participate in the International Boating Industry Business Conference and the International Boating Industry Investment and Trade

Michał Bąk from POLBOAT during the presentation about the Polish yachting industry

Francis Lapp - Sunreef Yachts Founder and CEO together with the Mayor of Haikou - Sun Shi Wen

Convention in Haikou, Hainan Province in China. These prominent events for a few days in December 2015 gathered all the important players in the yachting industry present in China who discussed the opportunities and specifics of the market. During these initiatives Sunreef Yachts representatives had the opportunity to present the company's products and vision to the audience and reveal plans for future development.

Christening ceremony

At the event the yacht's Owners were joined by Friends and Family to celebrate the beginning of their adventure with the sailing Sunreef catamaran. After the official part of the ceremony, a bottle was broken over the bow and everyone enjoyed a drink onboard.

Happy is an elegant ready-to-sail luxury unit with comfortable accommodation for 6 guests in 3 spacious cabins and 2 crew. She is a perfect combination of luxury and performance oriented boat for all those who are passionate about sailing the high seas.

The 60 LOFT concept was introduced by the Sunreef Yachts shipyard in 2013 and has since been one of the TOP sales products offered by the company.

SUNREEF YACHTS BUILDS ITS FIRST ADVANCED CARBON SUNREEF 74

03

The prototype of the carbon built Sunreef 74 is currently taking shape in the Poland-based shipyard's production halls. The unit being the 6th release within the Sunreef 74 line, will feature a carbon deck, flybridge, bulkheads and superstructure, allowing an improvement of seaworthiness and a smooth movement while passing through waves. The rigging includes a carbon mast and boom with an in-boom furling system.

The main navigation station will be equipped with touchscreens enabling automatic sail adjustments coupled with load sensors to prevent winch, hardware and rig overload. These solutions provide a redundant, easy and safe control of the sails and rig. The boat also features a large overlapping genoa for upwind optimized performance, a code 0 for reaching and a furling spinnaker for downwind performance.

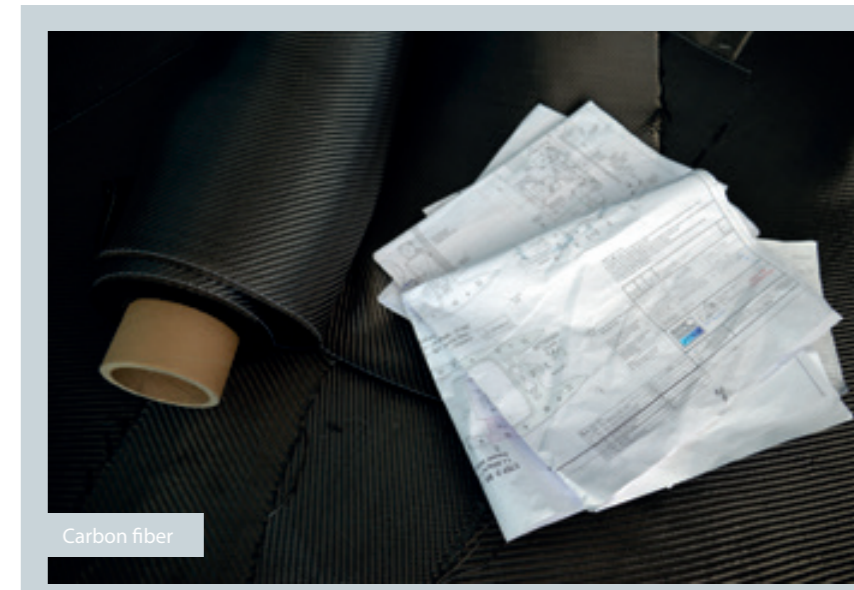

Sunreef 74

The boat's launching is planned for the early half of 2016.

Launched mid-2013, Sunreef Yachts' first carbon built catamaran was the Sunreef 80 Carbon Line Levante – a spectacular light, sailing superyacht prized with the European Medal Award by the Business Center Club.

04 AEROYACHT & SUNREEF YACHTS RACE FOR CHARITY

Aeroyacht Ltd., Sunreef's prolific US dealer's iconic 2004 Porsche Carrera GT was the vehicle of choice for the 2015 One Lap of America motorsports endurance event.

Gregor Tarjan owner of Aeroyacht Ltd. and Mike Danner piloted 5800 km in what many consider the world's toughest endurance motorsports event. Nearly a hundred thousand dollars was collected and donated to the US Alzheimer's Association.

This rare Porsche Carrera GT is a brute of a car built to the grueling 24hr Le Mans specifications. The V10 engine was originally developed for the Footworks Arrows F1 team and develops 610 hp. The body and frame are lightweight all carbon bringing the power to weight ratio into extreme territory. At 9000 rpm the audible storm of the engine is one of motorsport's best. Many say that this is the last analog supercar in the world since it is devoid of electronic aids or auto paddleshift gearbox. During this 7 day, 5800 km event 6 of the USA's best road tracks and several dragstrips and ovals were raced. The drivers minds and bodies were tested as much as the Porsche's reliability and endurance as torrential floods in Kansas and tornados in Oklahoma were dodged. For next year the Aeroyacht Racing Team is planing on driving a Porsche 918 Hybrid supercar in the 2016 One Lap of America.

Gregor Tarjan of Aeroyacht is as passionate about Sunreef Yachts as he is about his vintage automobile racing. His collection encompasses a 1973 Lola T440, a 1972 Porsche 914-6, a 1958 Peerless GT and a very rare 1925 Stutz Speedster. Many of Sunreef Yacht's customers are active car racers or have automobile collections and Gregor has succesfully acted as project manager for several of their Sunreef Yacht catamaran builds. More information on Aeroyacht.com. ■

WHITE DEER SAN LORENZO MOUNTAIN LODGE, AN EXCLUSIVE ITALIAN HIDEAWAY

It was love at first sight when Giorgia and Stefano Barbini who had already left the fast paced high fashion industry, saw an aristocratic hunting Lodge in South Tyrol and decided to acquire the forgotten property and transform it into a stylish and exclusive holiday retreat. Being real Italian Ambassadors, the couple decided to develop their vision and deliver to their guests an incomparable Italian Experience filled with hospitality, the greatest regional food, finest selection of wines and many attractions throughout the entire year.

The Lodge situated at an elevation of 1, 200 with a spectacular view of the Dolomite Mountains is perfectly tailored in every detail for ten people accommodated in four customized bedrooms. With a private helipad, luxury in-house spa and many options of activities for all seasons, White Deer is the ideal place for those who appreciate remote locales away from the hustle and bustle of the world. Hidden from the eyes of others, the Lodge's visitors can enjoy every single expression of Italy delivered by its inspiring owners and their selected crew who are like a Family.

In the winter time, the Mountain Lodge offers outstanding skiing conditions for professionals and beginners alike. The top activities in the Lodge during the Summer time are definitely golfing organized on the Lodge's private golf course and biking in the Mountains. As a special request, while being a simply fabulous cook – Giorgia Barbini is privileged to share her secrets of the Italian kitchen by organizing cooking workshops, while at the same time Stefano offers special wine and regional cheese tastings, wood chopping, mushroom picking, whitewater rafting and more.

Wanting to expand their vision worldwide, in 2014 the Barbinis decided to go one step further and connect the Mountains with the Sea by building their second lodge that could explore the oceans giving to guests the best Italian experience in the Mediterranean (in Summer) and the Caribbean (in Winter). This is how in 2015, the 74ft bespoke sailing catamaran, the San Lorenzo – Blue Deer was launched by the Sunreef Yachts shipyard.

The yacht managed by the Sunreef Yachts Charter Company offers to guests an unforgettable holiday experience at sea. ■

- 3. Outstanding skiing conditions for professionals and beginners
- 4. Wine tasting
- 5. Lounge corner
- 6. Regional food tasting with Stefano Barbini
- 7. Entrance view in the Lodge
- 8. One of four exquisite bedrooms
- 9. Spectacular tea room in the Lodge

AN INTERVIEW WITH OUR BUSINESS PARTNER DANIEL AU

Due to the growing interest in Sunreef catamarans, the shipyard has expanded its network of brokers and representatives across the globe. In 2015 the company decided to sign a dealership agreement with the Yachting Lifestyles Pte Ltd. company and its Owner – Daniel Au whose experience and passion for sailing inspired Sunreef to set up a collaboration.

SNM: How long have you been in the industry and what is your story with yachts?

DANIEL AU: Basically, I grew up doing everything that is connected with the Sun, Sand and Sea. I loved boats since I was a young boy, rushing to do anything that was close to the seas. i.e Jetski, water ski, diving, etc.. Then a couple of years ago, I thought to myself why not get involved with yachts since I love the seas so much. That is when a hobby became a business with passion.

SNM: Your office and a fabulous yachting bar that you are running are located in the heart of the ONE¹⁵ Marina Club Sentosa Cove. You spend most of your time working in this prime boating venue. Can you tell us more about the yachting community in Singapore?

DA: Well, Singapore is very different from the rest. Though it is famous for being strong in the industry of seaport services, it is a pity that we have very few islands to go around and no clear waters. But the good thing is that we are always in the summer season, 365 days a year. As for the owners, they take their boats out to other regions to spend a nice holiday with the family. Alternatively, they will just cruise out to a nearby island, drop anchor and relax with their loved ones. Boaters love to gather in the evening to talk about yachts, meet new friends, laugh and have a chat about what is happening around, therefore the bar comes into play. There was definitely no place for boaters to gather until our bar came up: eM by the Marina. It is now the meeting point for everyone.

SNM: Singapore is known as one of the best places for business, but after work people here appreciate various forms of exclusive entertainment. In your opinion, what are the most popular leisure activities?

DA: What else could it be? Having drink and great fun at eM by the Marina, Sentosa Cove Village!

The first event featuring the joint participation of Sunreef Yachts and Yachting Lifestyles Pte Ltd will be the Singapore Yacht Show held between the 7th and 10th of April 2016 in Marina ONE Sentosa Cove.
www.singaporeyachtshow.com

LAUNCHED WITHIN ONE DAY AT THE SUNREEF SHIPYARD, COORDINATED WITH MATCHING LAYOUTS AND HULL COLOR. SEEMINGLY THE SAME, BUT COMPLETELY DIFFERENT...

LET US INTRODUCE THE
SUNREEF 74 TWIN SISTERS

BLUE DEER

&

19TH HOLE

THAT HAVE JOINED THE
SUNREEF YACHTS CHARTER FAMILY

Sunreef's twin realization – Blue Deer and 19th Hole are two yachts the shipyard is particularly proud of, however considering their launching took place a good while ago (In April 2015), one may wonder why they have been so far kept secret. Here is some long-awaited insight into the boats' story and how the remarkable twin catamarans finally premiered.

The boats' launching was quite an exceptional event for Sunreef, as it has been the first time the company had set two catamarans afloat simultaneously. The sister ships didn't stay too long in the yard's dock as they quickly set sail to Italy to meet their respective Owners just before the start of the Med season. Both grey-hulled beauties are in fact owned by well-

known Italian families wishing to show yachting enthusiasts around the world what la dolce vita is all about. In order to do so, the Owners decided to charter both cats out in the Mediterranean right after their delivery and have them managed by the Sunreef Yachts Charter Team.

Both 19th Hole and Blue Deer have been shielded from public view for quite a while mainly because their Owners put all the focus on successfully conquering the charter market. Their intention was to take all the time necessary to work on a perfect set of enticing pictures only by the end of the busy Med season to then have the yachts officially premiered. 19th Hole and Blue Deer have fully open saloons with an impressive galley up equaling together over 30 sqm and featuring a massive countertop placed amidships to enjoy exquisite local food and elegant Italian wine. The yachts can accommodate 8 adults and 2 children in four separate spaces within the hulls. The two VIP cabins bring a maximum

of comfort and are equipped with comfortable king-size beds, wardrobes and retractable TV's. Thanks to spacious windows, facing the beds, guests can wake up in the morning sun. The two guest cabins are fitted with twin beds, convertible to doubles and an additional single bed to the wall. All of the rooms feature private bathrooms and convenient storage. The crew quarter is located in the portside hull and has a separate entrance from the cockpit that allows for more privacy when the guests rest inside the yacht. Most of the wining, dining and lounging is obviously enjoyed outside, on the boats' flybridge and cockpit, both of which boast impressive space.

Guests sitting on the spacious flybridge of the Blue Deer during their charter adventure

SUNREEF 74 – BLUE DEER

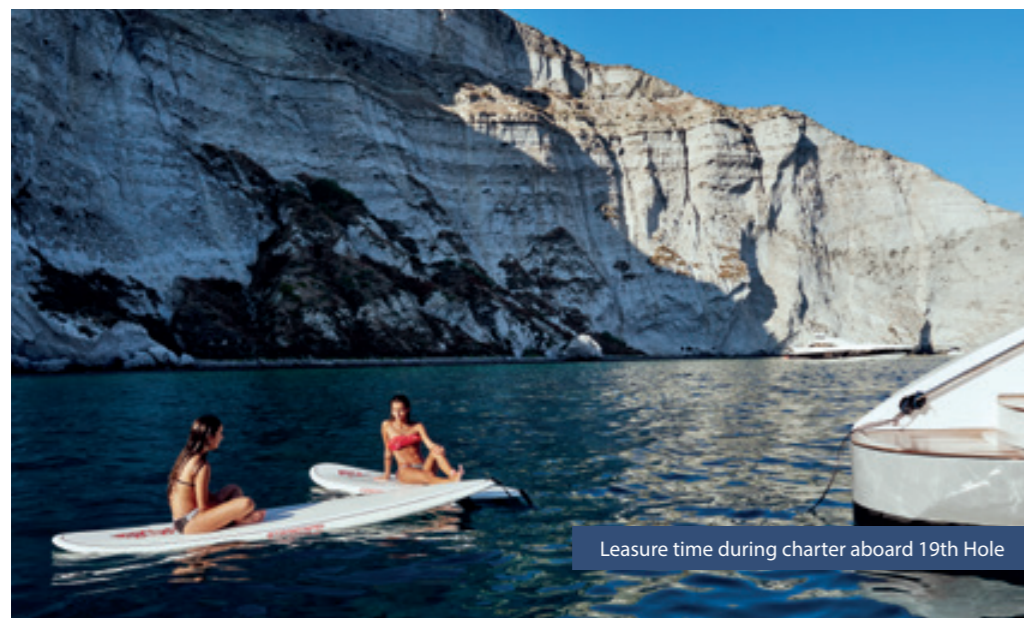

WHERE THE MOUNTAINS
MEET THE SEA

Sunreef 74 Blue Deer

Giorgia and Stefano Barbini in their professional lives have always been deeply immersed in the world of high fashion, working for the biggest names in the industry. The idea to build Blue Deer started when one day, the couple decided to leave the fast-lane life for a while and start developing their own signature holiday concept -

The San Lorenzo Lodges. The White Deer is the Barbini's tranquil mountain lodge, situated in the spectacular Dolomite Mountains. The Blue Deer, their stately catamaran, sails between the Italian Mediterranean and the Caribbean.

Leisure time during charter aboard 19th Hole

The twins are the pure essence of true Italian hospitality. Both express a genuine passion for design, understated luxury and fine cuisine. They may have the same layouts but are distinct in the combination of colors, fabrics and interior décor style. Each of the yachts has a different story to tell and reflects in fact a unique approach to lifestyle.

Charter guests aboard Blue Deer

Built as a part of a consistent vision of the San Lorenzo Lodges, Blue Deer has emerged from the need to find a new way to express hospitality and take it to the blue waters. The Owners incorporated into the yacht their impeccable taste and savviness of high end products and services acquired through years of experience on the fashion scene. As the Owners were actively engaged in every single stage of the creative process, Mrs. and Mr. Barbini together with Sunreef's in-house designers selected the finest fabrics and materials to obtain a perfection tailored to their high expectations.

Cruising onboard the Blue Deer is living a story-like adventure. One can hardly think of a better getaway from a busy life. Blue Deer simply seems to be able to make time stop.

SUNREEF 74 – 19TH HOLE PURE FLAVOR OF ITALY

19th Hole's story dates back a few years, when the head of the family purchased a pre-owned 70 feet sailing Sunreef named Anini. Inspired with this experience, the Owner eagerly upgraded to a brand new 74-footer.

Being an expert in fashion, he seized the opportunity to design the yacht's interiors and finish them using only the finest fabrics and materials. The boat's impeccable interiors make 19th Hole a rare treat.

The spacious cockpit directly connects to the main deck and its light-welcoming, soothing, fully open saloon equipped with spread leather sofas, leather poufs, infinite storage space, pop-up tv with a surround sound system and bookshelves on window sills. Panoramic windows offer a dream-like view and keep the saloon bright throughout the day. At portside, the saloon as well features a fully equipped galley with a pantry, modern appliances and a window sill with an indoor gardening stand. The central countertop features a prosciutto slicer, a wine-cooler and all the appliances one could think of when imagining a perfect setting for a pleasant evening spent among friends and family.

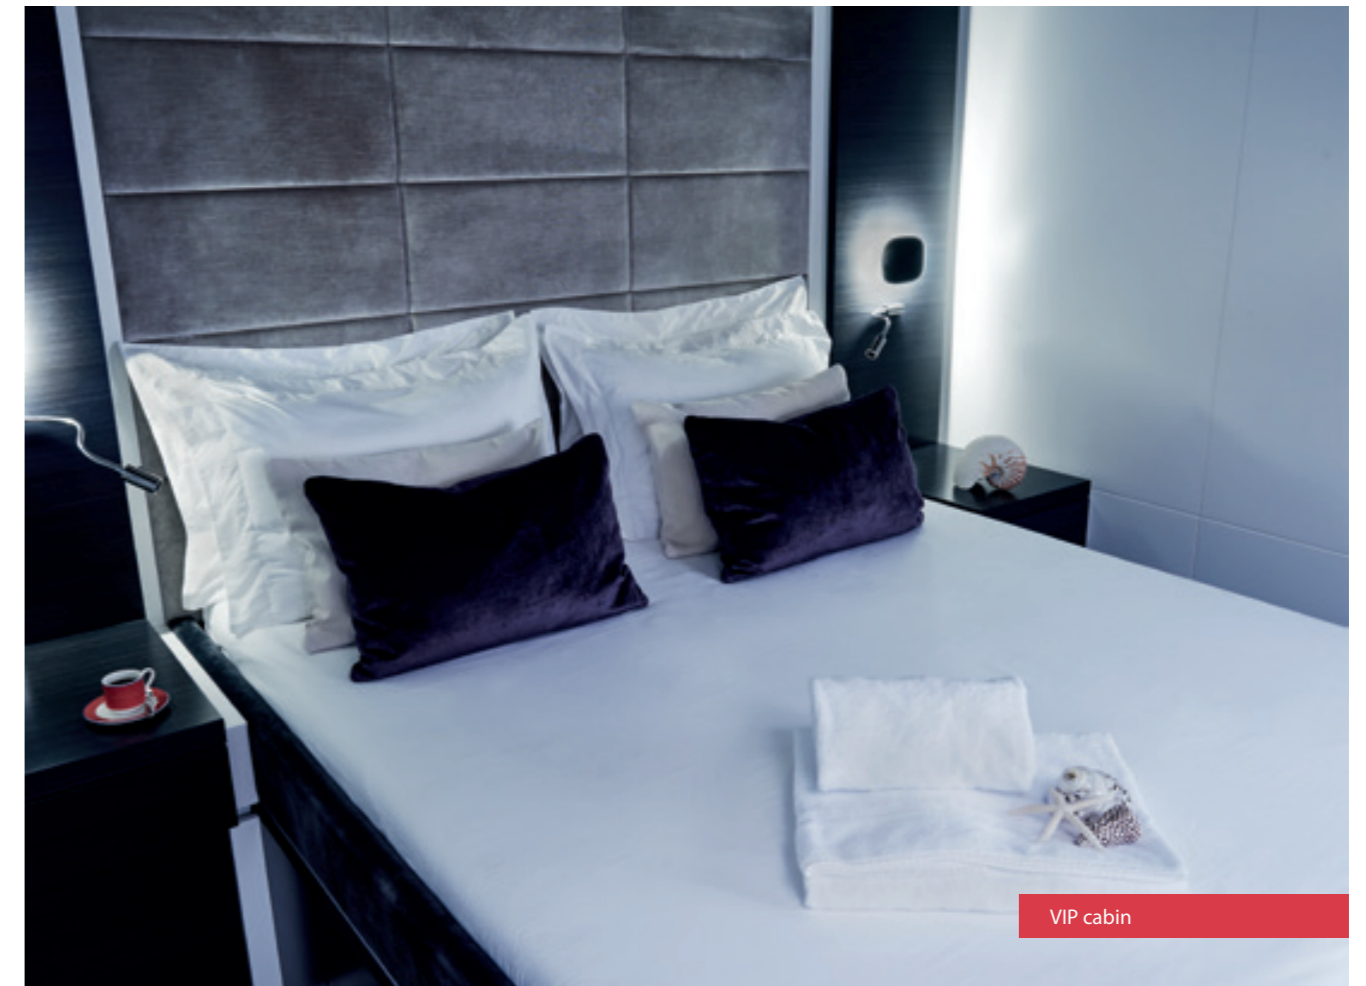

Prosciutto slicer

Open saloon with a galley up

Just like her sister, 19th Hole features two VIP and two guest cabins both spacious, with incredible layouts and style. The VIP cabin layout comprises a timeless combination of accessories playing in unison and bathrooms where modern and minimal meet. Spaces

for guests are like miniature hotel suites floating on water and each is equipped with an elevated king size bed, a pop up TV for enjoying the best of entertainment, a headboard for travelling comfort and reading lights.

VIP cabin

Spacious bathrooms in the VIP and guest cabins were specifically designed for comfort seeking passengers. The interiors have silver, amethyst, cobalt and navy blue touches. ■

CLASSICAL STYLE STAYS FOREVER

ONE GOOD LOOK AT LUCY Z – SUNREEF'S LATEST DAZZLING LAUNCH IS ALL WHAT IT TAKES TO UNDERSTAND HER NATURE: SHE'S A BRAND NEW, STATE-OF-THE ART CAT WITH THE HEART OF AN OLDIE.

Sunreef 74 LZ during the sea trials in Gdansk - Poland

Presented around mid - September 2015, she is the hull number 4 of the sleek Sunreef 74 line. Lucy Z combines all the advantages one can draw from owning a large, freshly-built catamaran with the spirit of a classy traditional yacht. Lucy Z lets you enjoy massive

living space, stability, shallow draft and is rigged with cutting edge gear, yet once you step aboard you may feel as if you have embarked on a cruise back in time. The reason for this is the tremendous amount of effort put into the boat's aesthetics.

Lucy Z's unique design is the fruit of a close collaboration between Sunreef's in-house design office lead by its Director – Joanna Szulc and Dana Avriel – designer and architect appointed by the Client for this exciting project. Knowing the Owner's passion for culture and history for having worked with him before, Dana's role was to come up with ideas for an authentic marine aspect both to the boat's exterior and interior. To start with the exterior, Lucy Z stands out with her dark grey hulls. As Dana Avriel explains

“the reason for this particular color choice was to keep the boat's exterior feel in sync with nature and give the hulls a gentle tone somewhat reminiscent of seaweed and the oceans' depths”.

The same principle applies to the boat's superstructure. The light grey found there is coincident with the greys of the skies so as to keep the yacht in visual unity with the elements. Lucy Z's flybridge is fully covered in teak and comprises a navigation station with a neatly finished classic wooden dashboard and steering wheel. The spacious sundeck overlooks a vast deck and cockpit, again, fully teak-finished for a timeless and authentic look.

Cockpit

Lucy Z's interiors - entirely clad in elegant dark wood, will usher you into a majestic back-in-time travel. The cabins and saloon feature a finishing inspired from classic yacht designs with navy-marine upholstery and bed linens combined with

brass décor elements. The mahogany grids fixed on the wooden white ceilings are there to emulate battens used in older times.

Joanna Szulc – at the helm of Sunreef's in-house design office explains that the creative process behind Lucy Z involved quite a lot of focus on the materials used "The idea was to implement a soothing interior design bringing to mind the all-time yacht classics on a modern boat. To do so, we put

extra focus on the materials, selecting the finest wood for the floors and premium upholstery. We also worked with authentic XIX century lamps, provided by the Owner and adapted them to the electrical system".

Comfortable and stylish saloon aboard LZ

Open saloon

Entered from Lucy Z's vast cockpit, the light and airy saloon with its panoramic windows is a true gem with an upright acoustic Yamaha piano installed in the front part of the room. This exceptional feature will add up to the atmosphere of Lucy Z's future cruises and with the piano placed facing the front window, it is also bound to provide the best musical inspiration possible. Windowsills on this yacht are spacious

and provide all the place needed for books and day to day objects. Lucy Z is ready to host a large number of guests with her spacious 12-seat table, a set of 2 poufs and widespread sofa. She is ideal for banquets with her generous wine cooler placed at hand just next to the piano. Guests on board can enjoy more entertainment with the pop-up TV in front of the large sofa.

Yamaha piano aboard LZ placed in the main saloon

Galley down

The fully equipped galley at portside can be accessed both from the main cabin and cockpit. Appliances include a refrigerator, deep freezer, oven, microwave, dishwasher, washing machine, hob, drier, a cooker hood and more.

Galley down

With over 230 m² of living space, a design made-to-measure and her splendid exterior looks, Lucy Z is surely going to seduce yacht enthusiasts all over the world.

Master Suite with king-sized bed and additional sofa

Sofa in the Master Suite

Sunreef cats can be entirely customized when it comes to layout. In Lucy Z's case the main idea was to come up with a comfortable cabin distribution for lengthy cruises among friends and family. The Owner's cabin at starboard occupies a vast part of the hull. It features a 200x200 elevated bed, with a mahogany finished platform that can be used as storage. Next to the bed, you will find the most relaxing reading spot including a sofa and bookshelves. The entrance to the stylish bathroom is placed just next to a massive wardrobe. In addition, facing the dressing area is a large make-up desk with drawers.

VIP Cabin

The starboard VIP cabin comprises a large double bed, a wardrobe and a desk fitted with a mirror. Portside you will find the yacht's second VIP cabin offering the same level of comfort. One of the boat's convenient features is the day head easily accessed from the saloon. The portside crew cabin will sleep three crew members on two single beds and an additional Pullman. The cabin's ensuite bathroom is accessed through a sliding door. Additional accommodation for crew is also available in the forepeaks.

VIP Cabin

Alfresco dining and lounging is enjoyed in both the flybridge and cockpit. This is where Lucy Z's guests will be surely spending most of their time aboard. The sundeck is equipped with a large dining table with adjustable height to enjoy

meals in the shade and sit back with a drink in hand. The cockpit features a dining teak table, a fridge, ice maker and a sink. Near the saloon entrance, a small coffee table is placed to enjoy your time outside on the L-shaped cockpit sofa. ■

SUNREEF YACHTS EXPANDS ITS MOTOR RANGE WITH THE

CATAMARAN – SUPERYACHT **150 SUNREEF POWER** CONCEPT

Knowing the growing popularity of larger multihulls in the recent years, Sunreef Yachts decided to unveil its latest project of the 46 m motor unit – 150 Sunreef Power.

This contemporary concept with a sporty streamlined style and total living space equaling almost 1000 m² on 4 independent levels (main deck, upper deck, flybridge and the hulls) is an evolution of the innovative 90 Sunreef Power and 115 Sunreef Power projects introduced in 2013 and 2014.

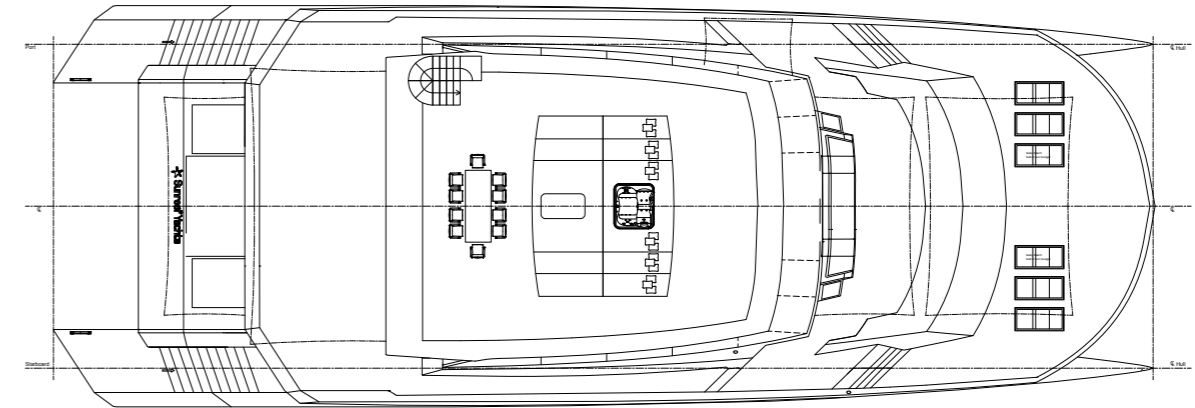

150 Sunreef Power

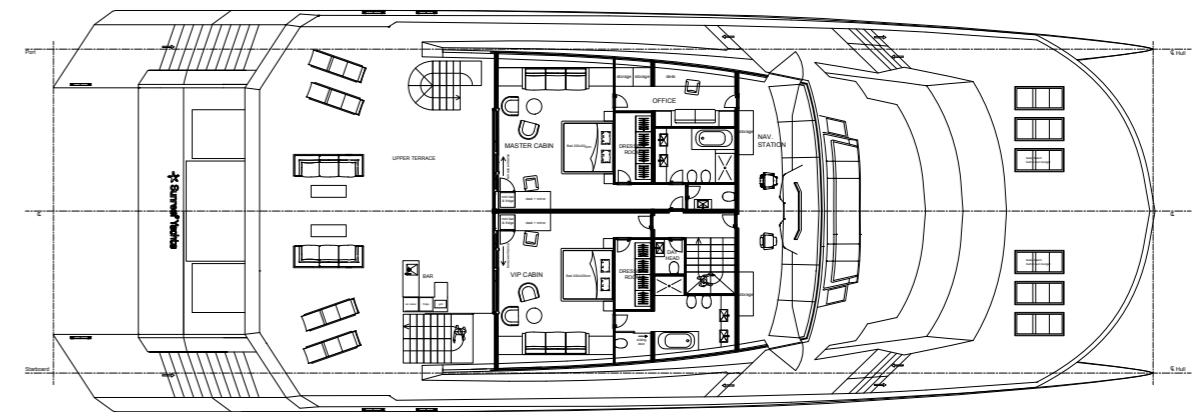

“This superyacht concept will offer to the guests superb comfort aboard, inside and outside.”

The 150 Sunreef Power is an ideal option for Owners looking for all the catamaran features such as: natural stability (thanks to two separate hulls), extensive living space offered by a wide beam, low draft and low fuel consumption combined with a motor superyacht look and Sunreef’s personalized design. This yacht will offer her guests superb comfort aboard, inside and outside. The main deck can feature an open saloon with dining and lounging area with sliding doors to the spacious cockpit and additional retractable terraces on both sides, gym, galley and guests cabins. The upper deck is the perfect place for a master suite, VIP Cabins, navigation station with breathtaking 180 degree window view giving plenty of natural light and direct access to the upper front terrace. The layout of the hulls can also be fitted to individual guidelines and equipped with a pantry, crew quarters and storage area or any additional spaces.

The yacht gives also an incredible alfresco experience to all of the guests who can relax on the magnificent front terrace, a 95 m² flybridge with a Jacuzzi and mattresses or cockpit on the main deck. The garage located at the aft allows the storage of all the water toys and the tenders. The 150 Sunreef Power can easily accommodate up to 12 guests in the most sophisticated conditions and comfortably sleep 12 crew members.

The production process will take no longer than 2 years. ■

2015 REVIEW

Last year's Autumn boat show season has finished for Sunreef with its participation in the 3rd edition of the Qatar International Boat Show in Marina Lusail - Doha. It was the first time the shipyard marked its presence in Qatar with the valuable support and sharing of its stand with the Qatar Chamber Of Commerce – an official institution involved in promoting luxury Sunreef catamarans in the Middle-East after signing the conclusion of a mutual collaboration agreement by the end of October 2015.

As part of a consistent vision of international expansion, only a few days before the QIBS in

Doha Sunreef displayed its charter catamaran 70 Sunreef Power Damrak II with new Mocha colored hulls and sailing beauty Grace from the Sunreef 60 LOFT line at America's number one yacht event – the Fort Lauderdale International Boat Show in Florida. Sunreef as the leading designer and builder of luxury catamaran-superyachts could not be missed also in Port Hercules at the Monaco Yacht Show (Sept. 2015). At the venue, the company was focused on promoting its latest concepts including the 150 Sunreef Power megacatamaran and sailing innovation – the Sunreef 165 ULTIMATE.

THE YACHTING FESTIVAL IN CANNES

With three catamarans on display (Sunreef 60 LOFT, 60 Sunreef Power Ocean's 11 and 70 Sunreef Power Blue Belly), a spacious floating platform equaling 300 m2 and its team of professionals, Sunreef had a phenomenal exhibition at the Cannes Yachting Festival held between the 8th and 13th of September in the Vieux Port de Cannes.

At the venue, the Sunreef stand was visited by distinguished guests and attracted media attention. In its few days the company had organized more than 20 sea trials, including a press breakfast aboard the newly launched yacht Blue Belly and the Annual Friday Cocktail Reception with live music,

delicious refreshments and sophisticated drinks, which was visited by over 300 guests. In addition, the shipyard completed numerous photo shoots and interviews aboard the yachts, as well as helicopter video footage, which will soon see the light of day.

Sunreef 60 LOFT Fineline

Much attention was drawn by the sailing catamaran – Sunreef 60 LOFT Fineline, which during the fair was officially handed over to the Owners. No less popular was the 60 Sunreef Power Ocean's 11 – catamaran with a distinctive blue hull. The undisputed star of the festival was Blue Belly, launched in 2015 – the first unit of the series 70 Sunreef Power with a fully open saloon.

The Cannes Yachting Festival is one of the most important events in the nautical industry including multihull's manufacturers. With every year, organizers raise the bar of professionalism, excellent preparation and attention to every detail. This time almost 500 exhibitors decided to participate and display their top products. We are completely aware that it is one of the best places for Sunreef. The place where we can display our catamarans "custom made"– said Francis Lapp, Sunreef Yachts Founder & CEO.

ON DISPLAY:
THE WORLD PREMIERE OF THE S68 LINE

ANOTHER YEAR AND ANOTHER AMAZING SHOW IN ANTIGUA WITH AWARDS

Returning to the Caribbean in December for the Antigua Charter Yacht Show, Sunreef Yachts made waves with its impressive lineup of four luxury catamarans. On showcase were the recently launched

twin Sunreef 74 sailing catamarans 19th Hole and Blue Deer, which were premiering for the first time together in the Caribbean, the widely popular 70 Sunreef Power DAMRAK II, and the elegant Sunreef 58 All View.

DAMRAK II docked in Falmouth Harbour Marina

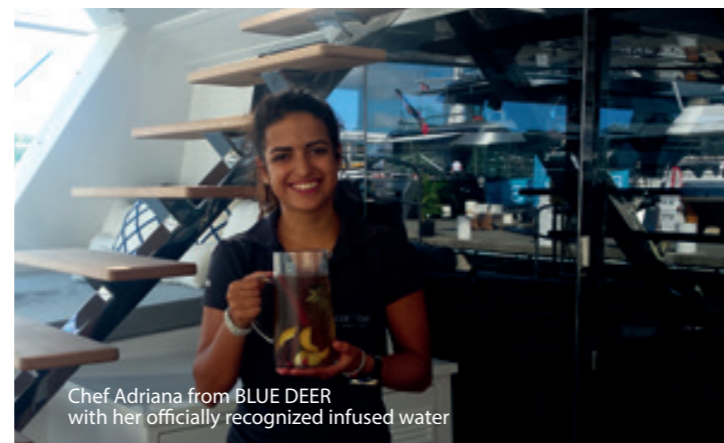

The new golden look of DAMRAK II

The premiere industry event always draws the best of the best and it was a true testament to Sunreef's commitment to excellence that each yacht on display received outstanding reviews from brokers and media in attendance, a select few of which were invited to sample the service and cuisine onboard the Sunreef

catamarans during specially hosted luncheons. Receiving special recognition at the show's Designer Water Contest was Blue Deer's Chef Adriana and her preparation of a Spicy Orange Infused Water with Pomegranate and Rosemary. ■

Following the Antigua Charter Yacht Show, a select group of industry professionals were invited by Sunreef Yachts Charter to explore the beauty of Antigua and its sister island Barbuda aboard twin Sunreef 74 catamarans 19th Hole and Blue Deer. The familiarization trip, more commonly known in the industry as a FAM Trip, provided the exclusive opportunity for charter brokers and journalists to experience each yacht's luxurious surroundings, amenities, service, and cuisine while visiting a choice selection of picturesque Caribbean ports of call.

During the three-day sailing holiday FAM Trip guests were joined by Director of Sunreef Yachts Charter, Joanna Kozak. The trip whisked guests away on a whirlwind vacation where there was no shortage of lovely anchorages. The itinerary started in English Harbour in Antigua, followed by a stop to the snorkeler's paradise of Nonsuch Bay in Green Island, then to a few remote tropical locales along the unspoiled coastline of Barbuda, with the final day being spent at heavenly Pigeon Beach at Falmouth Harbour.

The duration of their stay on board guests were treated to the full first-class charter experience with respective crews carefully attending to their needs. There were also plenty of opportunities for thrilling times at sea with a wide assortment of water toys at guests' disposals. Each day was

met with unforgettable moments as guests took in the unique philosophies of each yacht, 19th Hole defined by its passion for fine Italian living and Blue Deer with its perspective that looks towards the sea as a home.

Understanding that it is the little details that matter, Sunreef Yachts Charter prides itself on its high level of standards which is why the team was ecstatic to hear one broker exclaim that the "trip was amazing... everything was perfect!" Another broker was also "very impressed with the build quality and décor throughout" commenting that yacht was "very well designed" and the "crew was extremely charming and

helpful creating a very nice atmosphere on board." A pair of exquisitely designed luxury catamarans perfectly matched with impeccable crews and fine amenities, 19th Hole and Blue Deer deliver a trifecta of comfort, service, and atmosphere. After the winter season concludes, both yachts will sail to the West Mediterranean where they will be available for charter this summer. ■

Taking it easy on the way to Barbuda

HOME CENTER LITE is a new FIBARO System controller. Miniaturized central unit designed to manage any home automation system working on a Z-Wave protocol. Device features a new recovery system and backup cloud system. Fast communication with FIBARO sensors and all Z-Wave devices ensures comfort and safety for you and your family.

MOTION SENSOR will inform you about any visits of uninvited guests. Combined with other devices it can take further actions to protect your valuables and property, i.e. close the door locks to prevent a burglar's escape before the police reaction.

SMOKE SENSOR detects even the smallest amounts of smoke. In case of fire threat, together with other devices it will take actions to protect your family and prevent the fire from spreading. It may start the scene that shows the evacuation route with lights, cuts off the electricity and ventilation supply in a room engulfed in flames.

FLOOD SENSOR will inform you about any leakage, so in case of emergency you can act as quickly as possible. Thanks to its compact size it can be put even into hard-to-reach places to avoid water damage at your home or flooding of the neighbour's property.

DOOR / WINDOW SENSOR is a wireless, battery operated, magnetic door / window sensor. To be used with doors, windows, garage gates, roller blinds, etc., in home automation scenes, security, monitoring and safety systems.

WALL PLUG an intelligent, remotely controlled outlet adapter with the ability to measure power consumption. This highly functional Wall Plug adapter can be plugged into any electrical outlet, which then gives a possibility to control the electrical devices in a convenient, maintenance-free way.

MINIATURIZED MODULES can be installed in any wall switch box, behind a light switch, roller blind switch, garage door switch etc., and are compatible with any electrical system. FIBARO offers different kinds of modules allowing for control over lights, roller blinds, garage doors, RGBW lights, any home appliances or audio-video devices.
