OVER 100 PREMIUM BRANDS

Dear Readers,

Every year that goes by brings new plans, new destinations and a fresh perspective on life's challenges. For my part, I begin the new year in the desert. I set up camp in Dakhla, Morocco to take a short break between two stages of the Africa Eco Race – an exciting rally that Sunreef Yachts proudly partners. I enjoy a bit of silence on the shores of the Atlantic. I couldn't think of a fresher perspective and a better place to reflect on the year that has passed.

Last year was certainly a year of landmark projects for Sunreef Yachts. First of all, the 80 Sunreef Power debuted in Cannes. The positive feedback we received exceeded our expectations. The yacht's Monaco showcase confirmed that the superyacht clientele regards big catamarans as an attractive alternative for monohulls.

Up till now, when thinking of a superyacht, most people would usually picture a monohull. This point of view is about to change. Over the fall season we were entrusted to build the world's biggest luxury multihull motor yacht, the 49 M Sunreef Power. I am confident that this project will shape a new perception of luxury crafts.

One of the industry's most inspiring trends is the search for more sustainability. Last year we launched our first fully-electric Sunreef 50 sail catamaran, followed by an exclusive electric Sunreef 60. Our R&D department's main focus at the moment is to provide a responsible cruising experience to all our customers and expand our Eco-Electric line of luxury crafts.

Our main objective for 2020 is to seize on the momentum that has formed around Sunreef Yachts and to keep growing. We will introduce new models and aim to strengthen our position in the superyacht world. This will require effort and perseverance, but with your continuous support, we face our challenges with confidence. I want to thank you for being with us and wish you a wonderful year ahead.

Yours sincerely,

Francis Lapp

President and Founder of
the Sunreef Yachts Shipyard

AFRICA ECO RACE[®]

I AN OCEAN OF SAND: AFRICA ECO RACE 2020

Sunreef Yachts is the official main partner of the 2020 Africa Eco Race - a thrilling 6000km off-road race taking the participants from Monaco to the deserts of Morocco, Mauritania and Senegal for an epic adventure. An avid motorsports enthusiast, Francis Lapp, founder and president of Sunreef Yachts, has participated in many off-road events throughout his career, including two Paris-Dakar races.

Photography:
Africa Eco Race

For the 12th edition of the Africa Eco Race he not only decided to introduce Sunreef Yachts as the main partner of the event, but is taking part in the race onboard a custom-built rally car alongside off-road racer Jacky Lechleiter.

Sunreef Yachts custom-built buggy

Spring / Summer

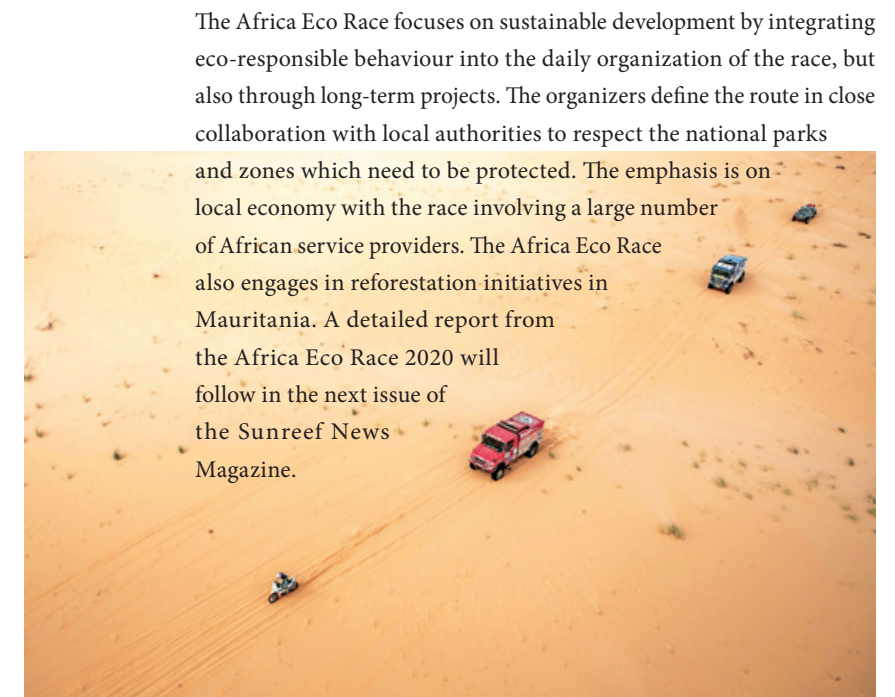

As the race progresses the Sunreef Yachts team faces fierce competition in the African deserts. At stage 6 Francis Lapp and Jacky Lechleiter arrived 7th after a fantastic effort on a 176km special between Arzmeila and Chami. On the way, the team has met several Polish racers including the Caritas team delivering milk supplies to the suburbs of Dakar.

From the left: Francis Lapp, Marcelina Zawadzka (Polish team), Jacky Lechleiter

From the left: Jacky Lechleiter, Francis Lapp, Albert II Prince of Monaco, Jean-Louis Schlesler

The Africa Eco Race focuses on sustainable development by integrating eco-responsible behaviour into the daily organization of the race, but also through long-term projects. The organizers define the route in close collaboration with local authorities to respect the national parks and zones which need to be protected. The emphasis is on local economy with the race involving a large number of African service providers. The Africa Eco Race also engages in reforestation initiatives in Mauritania. A detailed report from the Africa Eco Race 2020 will follow in the next issue of the Sunreef News Magazine.

2 A BUSY FALL BOAT SHOW SEASON 2019 FOR SUNREEF YACHTS

An active fall boat show season took Sunreef Yachts' team to the world's most renowned marine events. The company premiered three new models during the **Cannes Yachting Festival**. The 80 Sunreef Power, Eco-Electric Sunreef 60 and Sunreef 50 have made their official worldwide debut at the show, alongside the shipyard's bestsellers Sunreef Supreme 68 Power and Sunreef 80. By the end of September, the 80 Sunreef Power joined the **Monaco Yacht Show** for the world's premier superyacht showcase. The **Fort Lauderdale International Boat Show** once again gathered the industry's finest shipyards with Sunreef Yachts exhibiting the luxury Sunreef 60.

Francis Lapp and Nico Rosberg

3 BOAT SHOWS ON THE HORIZON

As every year, Sunreef Yachts is to participate in the world's most important marine events worldwide. From February 13th till 17th the shipyard will present two sail catamarans at the **Miami International Boat Show** for the official US debut of the Sunreef 80 and Sunreef 50. Next, the team will be taking part in the **Dubai International Boat Show** with a stand in the superyacht sector from March 10th till 14th. Between March 26th and 29th the **Palm Beach International Boat Show** will showcase the finest yachts from across the globe, including the Sunreef 60 on display. The 2020 edition of the **International Multihull Boat Show in La Grande Motte** in France, will take place from April 15th to 19th. Sunreef Yachts will join the event with a luxury sail catamaran on showcase.

4 SUNREEF 50 PAZ COMPLETES HER FIRST ATLANTIC CROSSING

After her delivery in Gdansk, Poland, the Sunreef 50 PAZ set sail on a cruise through Norway's fjords, then the Balearic Islands, all the way to the French Riviera. After her showcase at the Cannes Yachting Festival, the compact luxury catamaran crossed the Atlantic Ocean to enjoy a sunny winter in the Caribbean before the Miami International Boat Show.

The Sunreef 50 PAZ behaved very well through the entire journey averaging 6,5 knots of speed. PAZ is a private catamaran intended for long family cruises. Her navigation plans include circumnavigation via Mexico, Belize to the Panama canal into the Pacific.

5 VOTING TIME! TWO SUNREEF YACHTS TO COMPETE FOR THE MULTIHULL OF THE YEAR AWARD

The 80 Sunreef Power and Sunreef 50 have been nominated for the Multihull of the Year 2020 award. This exciting on-line competition organized by the Multihulls World magazine recognizes the best and most innovative yachts in the international multihull industry. The awards ceremony takes place

in April, during the International Multihull Boat Show in La Grande Motte in the South of France. With the voting now under way, we encourage you to visit the Multihull of the Year 2020 website and vote for the 80 Sunreef Power in the "Power Cat" category and the Sunreef 50 in the "Over 50 feet" category.

80 Sunreef Power

Sunreef 50

6 SAILING TO SUCCESS

Another successful season ends for one of Poland's most promising young sailing talents Kacper Stanislawski. Actively supported by Sunreef Yachts throughout 2019 Kacper has been taking part in local and international competitions. He spent the first months of the year in the South of Europe, participating in a series of training sessions and regattas in Malta, Cádiz and Mallorca. After a number of local competitions in Poland, he took part in two renowned European sailing events in Germany, winning bronze at the Europa Cup in Warnemünde and ending 15th at the Kieler Woche. Summertime has brought him the most significant win of the year - Kacper ranked 19th in the European Championship in Dziwnow.

7 THE SUNREEF YACHTS LOUNGE IN PORTO MONTENEGRO

Inaugurated mid-2019, the Sunreef Yachts Lounge is the shipyard's showroom and upscale bar in the heart of the emerging superyacht hub of Porto Montenegro. All the way through summer and fall, the lounge has welcomed guests from across

the globe and hosted a number of lifestyle events including the lavish Polo in the Port after party. A meeting point for all those who want to celebrate the yachting lifestyle, the lounge is located in the wonderful setting of Porto Montenegro's marina.

UNDER CONSTRUCTION : AN ALL-CARBON SUPERYACHT

Sunreef Yachts is building an all-carbon fiber Sunreef 80 sailing superyacht. This special edition of the Sunreef 80 will be delivered in the course of 2020. In addition to the carbon structure, its weight-reducing features will also include an in-house built carbon mast and boom. This luxury catamaran will feature a Vectran-Aramid main sail and Genoa, a laminated

Spectra staysail and a gennaker for optimized performance. An experienced yachtsman, the Owner decided to build his new craft with Sunreef Yachts after chartering one of the Sunreef 74's. His yacht's individually-tailored layout will include spacious accommodation for 11 guests and crew. Wind-free propulsion will come from two 280HP engines.

HANDBIKING THROUGH 2019 WITH THE ASF MULHOUSE

Throughout 2019 the ASF Mulhouse - a French parasports association supported by Sunreef Yachts participated in various competitions and championships worldwide. The athletes took part in the World Cup in Italy and Canada, European Handbike Circuit with races in Switzerland, Italy, Holland and France, the French Cup and the French Championship as well as the Berlin Marathon in Germany. The ASF also invited 20 children to join 3 regional races. As for 2020, the association's most promising talents aim for the Tokyo Paralympics.

MAKING A DIFFERENCE. SUNREEF YACHTS HELPS RENOVATE A POLISH HOSPICE

Francis Lapp and eMOCja center representatives

A holistic hospice and care center "eMOCja" is an exceptional initiative being developed in Gdansk, Poland. Focused on providing comprehensive psychological help to grieving families "eMOCja" will also be the new location for two hospices for terminally ill children. Before the new center can become operational, a major challenge awaits: a complete

FEATURE

IN POLE POSITION

A LOOK AT INDUSTRY TRENDS WITH FRANCIS LAPP

OVER 20 YEARS OF INVOLVEMENT WITH THE YACHTING WORLD I HAVE OBSERVED MANY TRENDS IN THE FIELD OF YACHT DESIGN. TODAY, WE ARE WITNESSING ONE OF THE MOST INTERESTING EVOLUTIONS OF THE INDUSTRY: AN INCREASING DEMAND FOR VOLUMINOUS CATAMARANS. A PART OF THE MONOHULL SUPERYACHT MARKET GRADUALLY SHIFTS TOWARDS MULTIHULLS.

We see more and more big catamaran designs emerging. Monohull brands are now trying their hand at luxury multihull design. In the nearest future, we will see twin-hulled crafts gaining ground in the superyacht world. This trend is visible and tangible. But where did it start?

When I founded Sunreef Yachts, luxury catamarans were non-existent. Nobody believed multihulls would ever achieve their current status. In 2003 we launched the world's first catamaran with a flybridge - the Sunreef 74. We discovered a new potential. From then, we kept pushing. We built the world's first double deck catamarans, launched the first carbon-built multihull superyacht, installed a folding mast on a +24m craft...

Our power catamarans were the first to feature pod propulsion and the first to achieve Atlantic range. For Sunreef Yachts, the quest for innovation never stops. In this industry, there is a distinct line between trendsetters and trend-followers.

Today's trend for big, ocean-going multihulls is a fact. Customer expectations have changed. Superyacht owners look for a better length-to-volume ratio, more stability, fuel efficiency and green solutions. They seek wide open spaces to enjoy with friends and family. They want to be close to the sea.

Sunreef Yachts has recently been commissioned to build the biggest luxury power catamaran up to date: 49M Sunreef Power - a 49m craft with a 17m beam. This catamaran, among other superyacht projects like the 110 Sunreef Power entrusted to our shipyard will become landmarks in the industry. We begin this journey in pole position.

A wide-angle photograph of the deck of a Sunreef 60 yacht at sunset. The deck is highly reflective, mirroring the sky and the yacht's structure. On the left, a large black sail is partially visible, featuring three prominent red rectangular patches. The horizon is low, showing a calm sea and distant land under a sky transitioning from orange to blue. The overall mood is serene and elegant.

SUNREEF 60

SAILING IN SILENCE

UNVEILED DURING THIS YEAR'S CANNES YACHTING FESTIVAL, THE SUNREEF 60 "E" BELONGS TO SUNREEF YACHTS' ECO-ELECTRIC LINE OF CUSTOM-CATAMARANS. WITH ELECTRIC PROPULSION AND SMART ENERGY MANAGEMENT SYSTEMS, THIS ECO-CONSCIOUS YACHT OFFERS A SILENT, VIBRATION-FREE CRUISING EXPERIENCE AND A RESPONSIBLE APPROACH TOWARDS NATURE.

” The Owner's dream was to sail in silence. The Sunreef 60 "E" project aims to harness the power of the sun, sea and wind to create a truly natural and innovative sailing experience. This state-of-the-art luxury catamaran represents the essence of responsible cruising.

The Owner's fascination with cutting-edge technology, safety, efficiency and care for the environment – but most importantly the love of sailing combine to create the Sunreef 60 “E” concept. To make this vision a reality he turned to Sunreef Yachts. His catamaran was carefully crafted to the finest details, offering responsible boating, abundant in comfort, elegance and dependable performance.

The Sunreef 60 “E” features a revolutionary all-carbon fibre bimini with in-built curved solar panels generating 4.5 kW. Carbon fibre is also used for the mast and boom.

Powered from a 134kW battery bank, the yacht's twin 55 kW engines allow for up to 6 hours of motoring in complete silence. The 600Ah house batteries allow to operate all the appliances for over 24 hours and power all-night air-conditioning.

The Sunreef 60 “E” concept incorporates weight-efficient and sustainable materials: reclaimed teak for the floors, compressed paper for countertops, titanium for railings as well as textile rigging and recyclable sails.

The yacht welcomes up to 10 people on board with a smart layout including a generous master suite and four guest cabins. Her refined interiors are kept in a timeless and soothing style.

EXPERIENCE
THE VIRTUAL TOUR
OF THE SUNREEF 60 "E"

The main salon and cabins feature art pieces by Victor Vasarely from the Owner's private collection. The saloon's custom-designed main bar incorporates an Op art work by Andrzej Nowacki.

The Sunreef 60 "E" belongs to the shipyard's Eco-Electric series introduced in 2019 with the launch of a fully-electric Sunreef 50 sail catamaran. Sunreef Yacht's R&D department is currently developing several green features to provide a more environmentally conscious navigation experience. The technologies developed include in-house solar panel production and the use of naturally-sourced materials for structural elements.

SUNREEF YACHTS'
NEW POWER RANGE

70 Sunreef Power

60 Sunreef Power

Following the official unveiling of the 80 Sunreef Power at the Cannes Yachting Festival, the 60 Sunreef Power and 70 Sunreef Power join the shipyard's new motoryacht offer. With first orders received Sunreef Yachts expands the range with two versatile models designed for worldwide navigation. Boasting powerful propulsion, extreme stability and seaworthiness, the two new motoryacht models offer the best of modern marine design for offshore cruising in ultimate comfort.

Infinite customization is available to adapt the 60 Sunreef Power and 70 Sunreef Power to every Owner's exact specifications and navigation plans. Both catamarans will feature an innovative aft garage and hydraulic platform to store, transport and launch the tender and PWC. A first 60 Sunreef Power is due for a late 2020 debut.

IN THE
WATER

Aria

80 SUNREEF POWER
IN HARMONY WITH THE SEAS

VOTED BEST POWER CATAMARAN AT THE WORLD YACHTS TROPHIES, THE 80 SUNREEF POWER ARIA BLENDS SEAWORTHINESS, EXTREME COMFORT AND BESPOKE DESIGN. A SUPERYACHT ON ALL LEVELS THIS EXCLUSIVE CRAFT IS THE FORERUNNER OF THE SHIPYARD'S NEW POWER CATAMARAN RANGE.

Aria's impressive 12m beam provides for immense exterior relaxation areas including a vast bow terrace accessed directly from the main deck saloon.

The catamaran's aft garage carries a large PWC, a refuelling station for both the tender and jet ski as well as extra storage for the yacht's selection of water toys. The living and lounging area of the aft cockpit stretches onto the catamaran's entire beam and extends to the hydraulic platform when the tender is set afloat. Aria also features a custom-built diving gear locker quickly accessed from the cockpit.

The yacht's power comes from twin 1200HP engines providing reliable performance and low fuel consumption.

To portside, three guest cabins are found, including one fitted with bunkbeds for children.

SUPERYACHTS

UNDER CONSTRUCTION

49M

SUNREEF POWER

THE WORLD'S BIGGEST LUXURY MULTIHULL

SUNREEF YACHTS HAS BEEN COMMISSIONED TO BUILD A BESPOKE 49M TWIN-HULLED SUPERYACHT. THE 1350GT CRAFT WILL BE THE MOST VOLUMINOUS LUXURY CATAMARAN EVER LAUNCHED AND THE BIGGEST SUPERYACHT MADE IN POLAND SO FAR.

Entirely manufactured at the Sunreef Yachts' facilities in the city of Gdansk, the 49m multihull marries cutting-edge engineering and radical naval design. The concept incorporates extremely vast outdoor living areas made possible thanks to the yacht's broad 17m beam. The yacht will be operated by 17 crew. Luxurious accommodation is provided for up to 10 guests.

The low drag and efficiency provided by the vessel's twin-hull design will allow an autonomy of over 5000 nautical miles with 90 000L of fuel capacity. Powered by twin 3400 HP engines, the catamaran superyacht will carry three tenders and a wide selection of watertoys and PWC's.

Imperial Yachts will act as advisor throughout the build process of this catamaran-superyacht due for delivery in the second half of 2021.

“ An exciting journey begins for us as we team up with Imperial Yachts on this fantastic project. Sunreef Yachts is a trend-setting catamaran shipyard, specializing in luxury multihull design and build. Large, custom-built crafts in our fleet include vessels over 100ft. With this new concept we engage in an ambitious endeavor to build a yacht that the industry has never seen before.

— Francis Lapp
Sunreef Yachts Founder and President

UNDER CONSTRUCTION

110 SUNREEF POWER

SUNREEF YACHTS CONTINUES TO MOVE FORWARD IN THE SUPERYACHT SECTOR WITH THE SHIPYARD RECEIVING AN ORDER FOR THE 110 SUNREEF POWER - A 33,5M MOTOR MULTIHULL. THE 499GT CRAFT IS DUE FOR A LATE 2021 DELIVERY.

Powered by twin 1361HP engines, the yacht will be operated by 9 crew. The garage of the 110 Sunreef Power accommodates for the tender, two large PWC's and a variety of watertoys.

In-house designed, the superyacht will be entirely manufactured at the Sunreef Yachts shipyard in Poland. The multihull craft boasts an original 4-deck concept inspired by the supercar industry. Generous accommodation will be provided for 8 guests with a layout including 3 vast guest rooms and a master suite with access to a private terrace on the bridge deck. The outdoor relaxation areas of the 110 Sunreef Power will also comprise a sun deck lounge with a spa pool, fire pit and bar, a forward terrace with oversized sunpads and an aft cockpit seamlessly transitioning into the immense main deck saloon.

Alexander Mijares

Alexander Mijares brings a colorful perspective and injects new life into the art world with his myriad of vibrant works. As a self-taught artist, Mijares finds inspiration in the dynamic energy of both his city of Miami and his Cuban and Spanish roots and creates pieces that are rich in culture. His vision has been recognized both nationally and internationally by some of the most discerning art collectors across the globe. Both Forbes and Elite Daily named Mijares "One of the Top 10 Most Influential Artists" in the US.

A. MIJARES

Taking place in the emerging superyacht hub of Porto Montenegro, Polo in the Port is an exclusive sports and lifestyle event partnered by Sunreef Yachts. Set up on an extraordinary pop-up polo field, overlooking the world's finest superyachts, this initiative is set to become one of the most exciting events in Montenegro's social calendar. Gathering families and sports enthusiasts for three days of

sports and entertainment, Polo in the Port welcomed guests from all over the world with sunshine, fine food, music and sporting excellence in a simply stunning waterside setting. To celebrate Polo in the Port, Sunreef Yachts hosted a private cocktail reception bringing together the organizers, players and guests for a night of celebration at the Sunreef Yachts Lounge in Porto Montenegro.

CHARTER
CORNER

New TO THE FLEET

THE TURN OF THE YEAR HAS BEEN TRULY AUSPICIOUS FOR SUNREEF YACHTS CHARTER: THREE SPECTACULAR ALL-NEW CATAMARANS SUNREEF 80 ABOVE, SUNREEF 70 OCEAN VIBES AND 80 SUNREEF POWER OTTOCTONE 80 HAVE JOINED OUR GROWING CHARTER FLEET.

These sumptuous representatives of Sunreef Yachts newest sailing and power range operated by their knowledgeable crews promise to deliver luxury charter vacations that will exceed all expectations.

Sunreef 80 ABOVE

Luxury sailing experience of a lifetime

Spacious outdoor areas have a variety of options for alfresco dining, lounging in the sun or relaxing in the shade. The airy flybridge is equipped with movable furniture, a Jacuzzi, fully-equipped wet bar, a barbecue and large sunpads. This luxurious charter yacht offers a variety of water sports and toys, including seabobs, paddle boards, wakeboards, snorkelling gear and many other fun water activities which will suit guests of all ages.

Available in Italy in summer and in the Caribbean in winter, ABOVE is operated by an amazing crew of five, including a highly skilled and competent Captain and a brilliant superyacht Chef, specializing in the Italian and Japanese cuisine.

Sunreef 80 ABOVE

Winter season

Location BVI / St. Martin

Weekly rate from \$70,000 (all inclusive)

Summer season

Location Italy

Weekly rate from €70,000 (plus expenses)

Launched in 2019, Sunreef 80 ABOVE is a state-of-the-art sailing catamaran with 340m² of living space offering an unmatched level of comfort. The yacht provides generous accommodation for eight guests in 4 stylish en suite cabins designed in a modern and sophisticated combination of black and white colors.

The aft cockpit merged with the fashionable saloon offers an astonishing panoramic view, housing an imposing dining area with a table and a comfortable sofa. Placed on the same level, the hydraulic platform considerably expands the socializing space, creating a private beach for the guests to enjoy. All the areas combined form a universal, open environment where flexibility and freedom reign.

Sunreef 70 OCEAN VIBES

Incredible sailing adventures in ultimate comfort

An early 2020 launch, OCEAN VIBES is a new Sunreef 70 sailing catamaran which strikes a balance between maximum comfort, optimum yacht's size and great performance under sail. With a total 287m² of living space, this luxurious classically inspired catamaran offers plenty of space for basking in the sun, lounging in the shade and alfresco dining in the picture-perfect surroundings.

Down in the pure white hulls, OCEAN VIBES provides ample accommodation for ten guests in 5 elegant en suite staterooms finished in gorgeous tones of greige and taupe.

The airy fashionable saloon picks up from cabins' relaxing colour scheme and introduces a welcoming atmosphere. Guests will surely appreciate a cosy interior lounge and dining area which blends seamlessly with the aft cockpit. Large exterior deck spaces offer a variety of options for entertaining and enjoying water sports activities.

An excellent choice for all sailing enthusiasts, OCEAN VIBES offers charters in the Balearics in summer and in the Caribbean in winter. The yacht is operated by a knowledgeable crew of three who will treat their guests to the most professional service and delicious cuisine.

80 Sunreef Power **OTOCTONE 80**

Fabulous cruising in the lap of luxury

OTOCTONE 80 is a head-spinning luxury catamaran from the newest 80 Sunreef Power range officially premiered at the 2019 Cannes Yachting Festival. This dynamic power catamaran takes luxury and seaworthiness to a new dimension, stretching the living spaces to the extreme.

Thanks to immense volumes in the hulls, OTOCTONE 80 comfortably sleeps eight guests in 3 vast en suite cabins and an opulent master suite with a sofa, a desk and dressing area, all decorated in soothing pastel tones. Flooded with natural light from the panoramic glazing, the yacht's fashionable saloon hosts a generous dining area with a table for eight guests and a comfortable sofa near the entrance to the aft

cockpit. The relaxation space of the cockpit features a bar, sunbeds, a table and a sofa. Placed on the same level, the hydraulic platform extends the cockpit's surface, offering extra lounging space.

Operated by a professional and attentive crew of four and filled to the brim with water toys, OTOCTONE 80 offers impressive entertainment and leisure facilities making her the ideal charter option for family and friends. The yacht is available for bespoke charters in Italy, France and the Balearic Islands.

Above expectations

An interview with Rocco Sisto,
Captain of the Sunreef 80 Above

WE MEET CAPTAIN ROCCO SISTO IN CANNES ON A BUSY DAY DURING THE CANNES YACHTING FESTIVAL. THE HELMSMAN OF THE SUNREEF 80 ABOVE TELLS US ABOUT HIS PERSONAL EXPERIENCE WITH SUNREEF YACHTS CATAMARANS FROM A SEASONED SAILOR'S PERSPECTIVE.

HOW LONG HAVE YOU BEEN SAILING?

I started out as a windsurfer over 30 years ago. From there, I went to racing on small fast boats like Hobie Cat, Flying Dutchman, Tornado, F18... I became captain in 2002, managing my time between working on luxury yachts and taking part in regattas on a maxi yacht and ORC class.

YOUR ADVENTURE WITH SUNREEF YACHTS STARTED WITH A SUNREEF 74 A COUPLE OF YEARS AGO... WHAT WERE YOUR FIRST IMPRESSIONS OF THE YACHT?

It was the Sunreef 74 BLUE DEER, a luxury yacht intended for high-end charters. I remember that when I first saw it,

I was convinced the yacht's overall design was mainly aiming at comfort. Everything I saw inside and outside suggested extreme comfort but I wasn't sure about the performance. It was a very pleasant surprise when we finally got on board for tests. We enjoyed some really good performance under sail. The time I spent working on BLUE DEER made me realize keeping balance between luxury and good sailing is an art that Sunreef is very good at.

FROM HELMING A SUNREEF 74 YOU SWITCHED TO AN EVEN BIGGER CAT, A SUNREEF 80. TELL US ABOUT THIS TRANSITION. WHAT WERE THE FIRST DIFFERENCES YOU NOTICED?

The Sunreef 80 is a totally new model, in a totally new range, so the differences are easily spotted. The shape of the 80 is more aggressive and the boat's presence is quite imposing with the increased height and new bulwark design. The 74 was already extremely comfortable, but I have to say the 80 is a whole different story. The spaces you find on board are just incredible and hard to compare with any other yacht in this length range.

WHAT SAILS HAVE YOU PUT ON THE SUNREEF 80 ABOVE?

To me, the choice of sails is crucial. They are just as important as engines are for a car. I wanted ABOVE to perform, so I used special “engines”, with a 240m² square top main sail and huge gennaker of around 400m². All of this gives you nice sailing experience even in light winds. With 8 to 9 knots of wind you can reach 8 to 9 knots of speed which is impressive.

WHAT ABOUT ATLANTIC CROSSINGS?

I’ve done 20 crossings in my life, including 4 on board a Sunreef Yachts catamaran. Personally, the ocean is where I get the most fun sailing Sunreefs.

WHAT MAKES ABOVE STAND OUT AS A CHARTER YACHT?

I think the question is not what makes ABOVE stand out in the charter world, the point is that there is no other valid competitor. It’s clear that there are lots of other catamarans out there, but none of them can compete with Sunreef Yachts. There’s something about the way they make you feel safe and stable without any compromise on luxury or good sailing. On top of that, the Owner of ABOVE came up with a really nice layout for charters. The aft cockpit is amazing and we have Jacuzzi on the flybridge too. I have seen quite a few Sunreef Yachts catamarans and it’s always a pleasure to see how different they are from one another. It is hard to compare with any other catamaran brand – they are simply another level.

Italy

Experience the true dolce vita

An ultimate itinerary for a luxury sailing vacation

SAILING ON A LUXURIOUS CHARTER YACHT IS THE BEST WAY TO DISCOVER NATURAL AND CULTURAL WONDERS OF THE ITALIAN COAST WHICH HAS ATTRACTED PEOPLE FOR CENTURIES. LET SUNREEF YACHTS CHARTER OFFER YOU AN AMAZING ITINERARY THROUGH THE PONTINE ISLANDS TO INSPIRE YOUR SUMMER HOLIDAY.

- 1 Gaeta
- 2 Ventotene
- 3 Zannone
- 4 Ponza
- 5 Palmarola

Tyrrhenian Sea

Relatively remote, quiet and laidback, the Pontine archipelago is a cluster of seven islands in the Tyrrhenian Sea off the coast between Rome and Naples. Stunning natural scenery, an authentic Italian atmosphere, cosy beach bars and great seafood, it is an oasis for visitors seeking peace and relaxation.

Gaeta

The journey starts in a picturesque coastal town of **Gaeta**, known as a land of legends and history with origins going back to the Ancient Greek and Roman Empires reflected by the remains of gorgeous Roman villas, gardens and two castles that were guarding the town.

Ventotene

After a day and night spent in Gaeta, the luxury yacht takes guests to a small island of **Ventotene**. This picturesque islet used to serve as a place of confinement but is now known as one of the greatest scuba diving spots in Italy.

Zannone

Zannone is the next island along the way that features stunning natural beauty and keeps dark secrets of Italian aristocracy who built a spectacular villa on the grounds of a medieval monastery. Thus from being a place of meditation, silence and prayer, the isle turned into a secret vacation retreat with masked parties, intrigues and scandals. It all ended in summer 1970 with the last owner of the infamous villa Marquis Camillo Casati's tragic act of jealousy. The isle was then reclaimed by the state and is now home to hundreds of mouflon wild sheep which had been brought here for hunting and announced protected species afterwards.

A TOUR OF THE PONTINE ISLANDS

Palmarola

Having visited Ponza, the guests will head to a secret islet of **Palmarola**. This tiny uninhabited island is a realm of myths and legends. This is where a Greek hero Odysseus was seduced by the sirens' songs on his way back home from burning Troy and had to plug his ears and tie himself to ship's mast to resist falling into the alluring waters. On Palmarola, there is an incredible cathedral made of rocks jutting out from the sea to the sky, like gothic spires. A majestic building hides mysterious grottos in the shadow of stone arches, which can be visited by boat or explored during a swim. The colours of the cliffs are mesmerising, like from a painter's palette. The water is crystal clear and still, the rock walls are smooth and shiny, covered in blue-orange corals and sea anemones.

Gaeta

From Palmarola guests sail back to Gaeta, where the sailing adventure ends. There is still some time to enjoy the onboard comfort while being treated to Chef's delicacies before taking your a flight back to reality. *Arrivederci!*

Ponza

Leaving Zannone behind, guests will enjoy a stunning sail to **Ponza**, a beautiful island shaped like a crescent moon. Almost unknown to tourists, this magical place astonishes with sandy beaches, white granite rocks, orange-purple sea grottos and pirates caves where scuba divers still search for hidden treasures. Stepping off the luxury yacht, guests can taste iconic Italian dishes and regional specialties in one of local restaurants.

WHY PUT YOUR SUNREEF CATAMARAN INTO CHARTER?

Interview with Aleksandra Chabros,
Charter Manager at Sunreef Yachts Charter

IN THE MIDST OF A BUSY ANTIGUA CHARTER YACHT SHOW WE MEET UP WITH CHARTER MANAGER ALEKSANDRA CHABROS. BETWEEN YACHT INSPECTIONS AND TEST CRUISES, ALEKSANDRA TAKES A SHORT BREAK ON THE FLYBRIDGE OF THE SUNREEF 80 ABOVE TO TELL US ABOUT OPTIMIZING THE YACHT OWNERSHIP EXPERIENCE.

WHAT CAN YACHT OWNERS BENEFIT FROM BY CHARTERING THEIR OWN LUXURY YACHTS?

Putting a yacht in charter is a very profitable enterprise for the owners. Charters generate income which means that the running costs of the boat can be partly or fully covered from the charter revenue depending

on the intensity of the commercial activity of the boat. The owners can decide how many weeks they want to use their yacht and how many weeks are available for customers. That is a very attractive vision for many owners we work with as it allows them to significantly reduce the total cost of ownership.

Also, a successful charter yacht is a recognizable brand with its repeat customers and its resale value is superior to that of private boats.

DO YACHT OWNERS NEED TO BE INVOLVED IN CHARTER MANAGEMENT?

It is always up to owners to what extent they would like to be involved in charter matters and decision-making processes. We need to know when

they are planning to use their boat, which destinations they would like to sail to, what sort of charter results they would like to achieve. However, once the plans are discussed and agreed upon, we can spare them operational details by representing their interests as central agency.

CAN YOU EXPLAIN WHAT CENTRAL AGENCIES ARE AND HOW THEY WORK?

In general terms, a central agency is a company which represents multiple boats on the charter market in order to provide each Owner with satisfying financial results. This is commonly known as charter management. A central agency has several tasks and operates on numerous levels. First of all, it promotes its fleet among charter brokers which maximizes the chances to have a calendar filled with bookings. The core is online marketing but a successful charter yacht must be displayed on boats shows too.

Second of all, a central agency coordinates all charter inquiries, handles bookings and stores all information about the operation of the boat. Analysing that information allows us to advise the owners on optimal charter destinations where the boat should be based and help them build up a plan of operations for next seasons.

Last but not least, a renowned central agency, ideally a MYBA member, keeps an eye on the standard of charters and stays in close contact with the crew to make sure the clients are satisfied with each and every aspect of their charter experience.

WHAT IS MYBA?

MYBA The Worldwide Yachting Association is a professional organisation acting on the international stage of superyacht industry in order to produce the highest standards of luxury charters.

Not only does MYBA provide formal, legal and ethical guidelines for agents and brokers but it also constitutes a trademark of quality. MYBA members are professionals with a proven track of success in the yachting industry.

MYBA is not just a trademark, it is a very active association which organizes boat shows, seminars and other kinds of professional events on a regular basis.

WHY CHOOSE SUNREEF YACHTS CHARTER?

We are a leading catamaran charter agency with yachts operating worldwide. Most of the boats in our fleet are Sunreef catamarans. As a daughter company of the Sunreef Yachts shipyard, we know the product really well and closely cooperate with different departments of the shipyard. This allows us to maximize the efficiency of our work, mainly planning and promotion-wise.

We have over a decade of experience in luxury catamaran charters. On top of that, we are a full MYBA member with well-established long term relations with the most reputable brokerage houses worldwide. This is a guarantee of our professional standards and a deep understanding of the industry specifics. Last but not least, each owner has different needs and we treat each boat on a case-by-case basis. Our charter management program is therefore fully customizable which ensures a smooth and flawless cooperation resulting in satisfaction of both yacht owners and charter clients.
