Spring / Summer 2022

We Care

Dear Readers,

Let me take you back to a milestone moment at Sunreef Yachts. A busy January afternoon begins in Gdansk, Poland as the team prepares for the launch of the all-electric Sunreef 80 Eco. Despite the snow and the cold, the operation runs smoothly and we soon see the hull hit the waters of the Martwa Wisla river. This is the starting point of a new journey. One that will shape the future of responsible yachting. We cruise into the new year on board an ultramodern solar craft with pioneering green tech. We are ready for another year of innovation and enter it with loads of green energy, that we want to share with all the Sunreef family across the globe.

We look back at a dynamic and busy 2021. Our efforts in the domain of sustainability have been rewarded by an increased demand for the Eco range and international industry awards including the Green Yacht Trophy in Cannes, the Boat Builder Award in Amsterdam and the German Design Award.

Pushing innovation forward requires dynamic synergies and meaningful partnerships. As partners of the Rosberg X Racing team, we were very proud to see them triumphing in the Extreme E. Being part of this wonderful initiative and being able to support the team's sustainability action has been an honor. The Sunreef Yachts Eco range also certainly gathered great momentum when two-time Formula One World Champion Fernando Alonso commissioned a custom 60 Sunreef Power Eco catamaran. Welcoming another outstanding sports personality into our family of ambassadors helps us move forward with even more confidence.

With the 70 Sunreef Power recognized as Best Motor Catamaran at the World Yachts Trophies and the 100 Sunreef Power launched, I can proudly say our motoryacht range is enjoying a wave of success. At the same time, our fleet of sail catamarans gains a spectacular addition with the new Sunreef 43M Eco. All of this is generating plenty of optimism and positive energy.

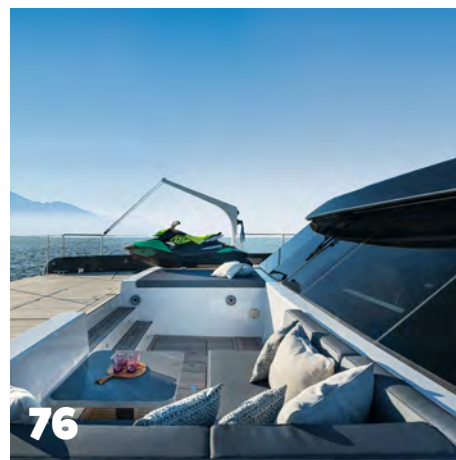

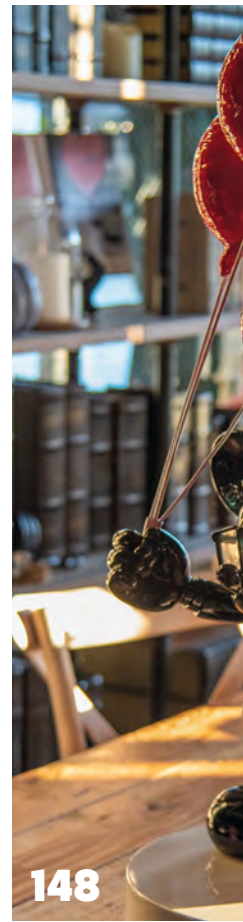

I truly hope and believe we all have a productive year ahead. I want to wish you all the best of health and many opportunities to go out into the sea and celebrate the lifestyle we all love.

Yours sincerely,

Francis Lapp

President and Founder of the Sunreef Yachts Shipyard

1 BOAT SHOWS ON THE HORIZON

After an extremely busy fall season including successful showcases in Cannes, Monaco and Fort Lauderdale, Sunreef Yachts prepares for two important winter marine events. From February 16 till 20, Sunreef Yachts will take part in the Miami International Boat Show, presenting the luxury Sunreef 80 sail catamaran Double Happiness. Next, the team will head over to Dubai for the Dubai International Boat Show and the global premiere of the Sunreef 80 Eco all-electric catamaran from March 9-13.

2 TIME TO VOTE: MULTIHULL OF THE YEAR 2022

Hosted by the Multihulls World magazine, the Multihull of the Year is the most renowned competition solely dedicated to catamarans and trimarans. In the 2022 edition of the election, the 60 Sunreef Power competes for the award in the Multiyachts category. The voting opens February 16th with the start of the Miami International Boat Show and the results are announced during the International Multihull Show at La Grande Motte in France. We encourage you to support the 60 Sunreef Power by voting on the awards' dedicated website.

3 CUSTOMER LOYALTY: THIRD SUNREEF YACHT IN THE OTOCTONE FLEET

The owner of the Otoctone 60 and Otoctone 80 power catamarans ordered an electric Sunreef 80 Eco sail catamaran. Fitted with Sunreef Yachts' ultralight, composite-integrated solar panels and equipped with green propulsion, this electric Sunreef 80 will be a great eco-responsible addition to a highly-successful charter fleet of luxury catamarans.

4

THE SILVER CROSS OF MERIT

On December 6, Francis Lapp – Founder and President of Sunreef Yachts, received the Silver Cross of Merit in Gdansk, Poland. This prestigious civilian award recognizes his personal engagement in social and charity initiatives in Poland and internationally.

Francis Lapp also joined a mentoring session with Polish MBA graduates by the end of 2021, sharing his business expertise and personal journey with the audience. The speech was followed by an informative Q&A session.

5

PARIS HILTON’S HOLIDAY ON BOARD A SUNREEF POWER CAT

Paris Hilton offered herself a break in the Mediterranean at the end of August, in one of her favorite locations: Corsica. Accompanied by her fiancé, she chose to spend her free time soaking up the sun on board the 80 Sunreef Power Octotone 80. A regular visitor to Corsica, Paris Hilton seems to enjoy the comfort of luxury catamarans as she was also recently spotted on board the Sunreef 80 Bundalong.

6

PATRICK MOYSES – COACH OF THE FRENCH HANDBIKE TEAM

Patrick Moyses – President of the ASF Mulhouse Wheelchair Sports Association took part in the Tokyo 2020 Paralympic Games as the coach of the French national hand-bike team, leading it to a spectacular victory with five Olympic medals.

Sunreef Yachts proudly supports the ASF Mulhouse – a renowned Wheelchair Sports Association in France. This outstanding parasports association participates in various competitions and championships worldwide to promote sportsmanship on the highest level.

World Yachts Trophies 2021

A double victory for Sunreef Yachts

SUNREEF YACHTS CELEBRATED A SPECTACULAR DOUBLE VICTORY DURING THE WORLD YACHTS TROPHIES 2021, WITH THE 70 SUNREEF POWER VOTED AS BEST MOTOR CATAMARAN AND THE SUNREEF YACHTS ECO RANGE WINNING THE GREEN YACHT TROPHY.

The World Yachts Trophies are considered as one of the most important yachting award ceremonies in the world. On the night of September 11th 2021, the shipyard was honored with two trophies received on stage by Sunreef Yachts' Founder and President Francis Lapp.

With the 70 Sunreef Power voted as Best Power Driven Catamaran and the Sunreef Yachts Eco range winning the Eco Green Catamarans Trophy, Sunreef Yachts gains two precious awards, recognizing the shipyard's expertise and know-how in luxury multihull design. For the highlight of the evening, the luxurious 60 Sunreef Power Octotone 60 joined the annual Yacht Parade.

Best Motor Catamaran

The new 70 Sunreef Power continues the legacy of shipyard's classic motor yachts, combining seaworthiness, autonomy and unrivalled level of comfort. Launched at the end of 2021, the 70 Sunreef Power joined the range of Sunreef Yachts' relentless power cats alongside renowned models such as the 60 Sunreef Power, 80 Sunreef Power and 100 Sunreef Power.

Green Yacht Trophy

The Green Yacht Trophy crowns the success of the Sunreef Yachts Eco Range in the domain of eco boating. The Sunreef Yachts Eco range is a concept of eco-responsible sailing and power luxury catamarans. To create a more sustainable cruising experience, the shipyard combines hi-tech electric propulsion, an in-house produced solar power system, smart energy management and ethically-sourced finishing materials.

SUNREEF THE INTERNATIONAL **70** WINS YACHT & AVIATION AWARD

The Sunreef 70 was voted as best Sailing Yacht at The International Yacht & Aviation Awards. Putting fine design and excellent craftsmanship in the spotlight, the Yacht & Aviation Awards recognize and reward the best creations and most innovative concepts in the aircraft and yachting industry.

The 11th edition of The International Yacht & Aviation Awards hosted by leading design magazines Design et al and Luxe et al, culminated on August 20th with an official ceremony at the Belmond Hotel Cipriani in Venice. The Sunreef 70 won in the Sailing Yacht category, rewarded for her innovative and trendsetting design.

The Sunreef 70 belongs to Sunreef Yachts' range of exclusive sail catamarans. With outstanding living space, this luxury catamaran model balances extreme comfort, great performance under sail and advanced technology. A fully-customizable craft, she offers an infinite variety of layouts and décors.

Celebrating Sustainability: Sunreef Yachts Eco wins

The 2021 edition of the Boat Builder Awards rewarded the Sunreef Yachts Eco range of sustainable catamarans as the industry's best Environmental Initiative. The prestigious award ceremony took place, during the METSTRADE in Amsterdam.

The Boat Builder Awards for Business Achievement, jointly run by IBI and METSTRADE, recognize the contributions of individuals, teams and supply chain partners within boat building companies globally.

The Sunreef Yachts Eco Range stands out not only with its innovative technology, but also represents a holistic and comprehensive approach to eco yachting. With numerous prestigious awards in the field of sustainability, Sunreef Yachts Eco is the world's most advanced series of eco-friendly catamarans.

Design Excellence

Three design awards for Sunreef Yachts

SIT Furniture Design Award™

The interior of the Sunreef 70 Ginette has been recognized as one of the winning designs in the SIT Furniture Design Award™. Created by the Sunreef Yachts team of interior designers, the bespoke décor of the yacht is a universal blend of elegance, comfort and luxury.

The SIT Furniture Design Award™ celebrates and promotes remarkable designs and the best furniture concepts. The Sunreef 70 Ginette is a custom-tailored sail yacht blending refined looks and supreme comfort. The winning project's bespoke décor is contemporary and classic with numerous velvet and brass accents.

DNA Paris Design Awards

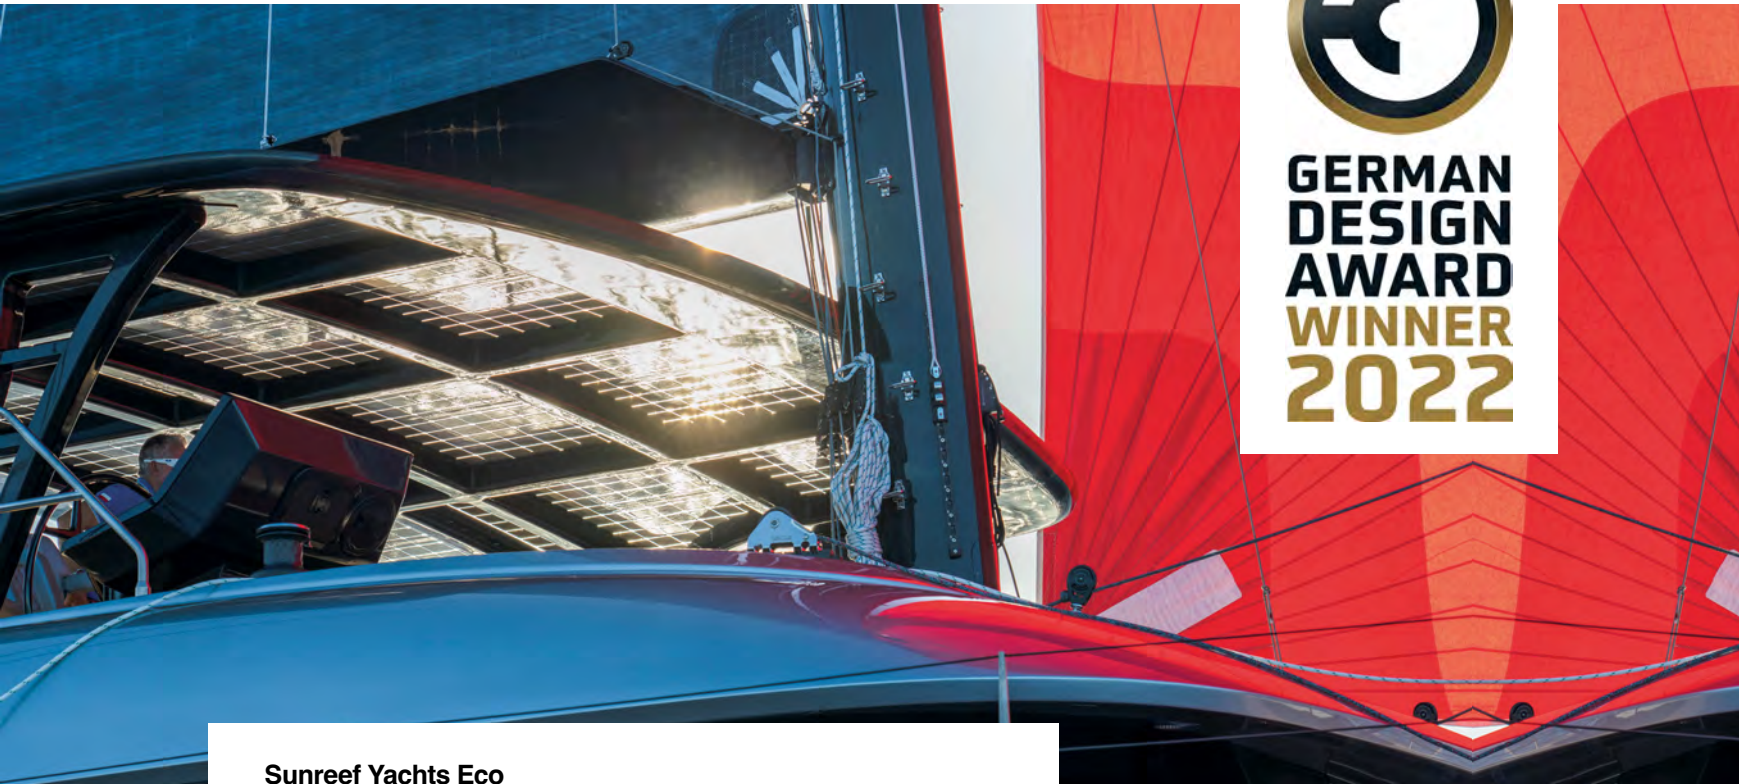

The interior décor of the 80 Sunreef Power Kokomo was recognized as one of the best designs of the DNA Paris Design Awards 2021. This competition honors the most innovative, original and functional projects in design and architecture. With her elegant classic look and wide-open lounging spaces, Kokomo is the perfect expression of the yachting lifestyle.

The 80 Sunreef Power Kokomo's interior design was inspired by exotic beaches. The yacht's owners opted for a décor reflecting the atmosphere of a tropical seaside retreat with beige tones, eucalyptus veneers and linen upholstery. The catamaran's relaxing décor uses light colors and a variety of natural fabrics.

**GERMAN
DESIGN
AWARD
WINNER
2022**

**Sunreef Yachts Eco
PROUD WINNER OF THE GERMAN DESIGN AWARD 2022**

Sunreef Yachts Eco Wins the German Design Award 2022 hosted by the German Design Council. Rewarding the most inspiring designs across various industries worldwide, the jury recognized the Sunreef Yachts Eco solar power system as the best product in the Eco Design category.

The jury of the German Design Awards voted Sunreef Yachts' in-house engineered solar power system as the best Eco Design in the Excellent Product Design category. The German Design Awards honor the companies contributing to a better future with their innovative spirit.

With accolades including the World Yachts Trophy, the UIM Environmental Award and Gustave Trouvé Award, Sunreef Yachts Eco are an avant-gardist range of sustainable catamarans promoting a new philosophy of responsible boating.

THE GREEN BREAK- THROUGH

Sunreef 80 Eco

SUNREEF YACHTS LAUNCHED THE WORLD'S MOST ADVANCED SUSTAINABLE LUXURY CATAMARAN IN THE SHIPYARD'S NEW FACILITIES IN GDANSK, POLAND. THE ALL-ELECTRIC SUNREEF 80 ECO IS A FULLY-AUTONOMOUS CRAFT USING REVOLUTIONARY GREEN TECH FOR FUEL-FREE CRUISING IN TOTAL SILENCE AND LUXURY. DESIGNED AND BUILT TO NAVIGATE IN COMPLETE HARMONY WITH THE ELEMENTS, THE SUNREEF 80 ECO IS A PIONEER IN THE WORLD OF RESPONSIBLE YACHTING.

We take a great step forward with this truly pioneering yacht. Renewable energy is the key element in the design of the Sunreef 80 Eco. Thanks to a revolutionary solar power system, hydro-generation and performance sails, the Sunreef 80 Eco provides full autonomy, relying on the sun, water and wind.

– Francis Lapp
Sunreef Yachts Founder and President

Unique in the industry, the Sunreef 80 Eco's solar power system features ultralight composite-integrated solar panels within the hull sides, mast, superstructure and bimini roof. Using an industry-first technology, the photovoltaic system can deliver up to 36 kWp.

The yacht's wind-free propulsion comes from twin 180kW electric engines providing top energy efficiency and performance. While under sail, the Sunreef 80 Eco recovers energy from the passive motion of the two propellers thanks to an advanced hydro generation system. The energy obtained will be used to power both the propulsion and house appliances. The system will be able to generate over 15 kWh while sailing above 7 kts.

FERNANDO ALONSO

ON BOARD

WITH SUNREEF YACHTS ECO

TWO-TIME FORMULA ONE WORLD CHAMPION FERNANDO ALONSO COMMISSIONED A CUSTOM 60 SUNREEF POWER ECO CATAMARAN WITH SUNREEF YACHTS. THE BUILD CONTRACT WAS SIGNED ON SEPTEMBER 1ST AT THE YACHT CLUB DE MONACO BY FERNANDO ALONSO AND SUNREEF YACHTS' FOUNDER AND PRESIDENT FRANCIS LAPP.

Photography: Fernando Alonso Team

Combining avant-gardist green tech and sustainable design, the Sunreef Yachts Eco range offers the industry's most advanced solutions for a responsible cruising experience, including ultramodern, energy-efficient electric motoryachts. Fernando Alonso's custom 60 Sunreef Power Eco will be fitted with electric engines and equipped with the shipyard's in-

house developed solar power system. The yacht will also feature Sunreef Yachts' custom-engineered ultralight batteries and an energy-saving air-conditioning system. With the signature of this new build contract, the motorsports superstar joins the family of Sunreef Yachts ambassadors.

“

We are very proud to welcome Fernando Alonso into our family. We begin a great journey together as we start a new electric 60 Sunreef Power Eco project. We take another big step towards a more sustainable yachting experience and we are thrilled to take it together with an outstanding and inspiring ambassador on board.

– Francis Lapp
Sunreef Yachts Founder and President

”

Sunreef Yachts' ability to combine quality and technology is impressive. I have been observing the evolution of this brand for a while and I appreciate their commitment to push innovation forward with the Sunreef Yachts Eco range. I'm excited to embark on this project as I know the 60 Sunreef Power Eco represents everything I am looking for: top engineering, amazing know-how and an amazing eco-friendly product.

– Fernando Alonso

What is your vision of a perfect day at sea?

**FERNANDO
ALONSO**

My perfect day at sea would not start too early. It would be a day off, starting with breakfast on board with friends and family. This would be followed by swimming and some water sports. After lunch, we would all relax, talk and enjoy the sun. Dinner would be a barbecue that we would prepare and cook ourselves and enjoy together.

Why did you choose to build an electric yacht?

**FERNANDO
ALONSO**

The world is moving in this direction. We are more aware and want more sustainability. We have seen important changes over the last years in global mobility, and to me it makes perfect sense to go for an electric catamaran. This type of vessel gives you a closer bond with the seas. The world is going electric and yachts should also follow.

Why did you choose to build your yacht with Sunreef Yachts?

**FERNANDO
ALONSO**

It was a very easy choice. Sunreef Yachts is known for high quality and has earned a great reputation over the last two decades. I really wanted to build a catamaran, because I wanted to enjoy more space and all the other advantages that multihulls bring. At the same time, my vision was to build a luxury craft of the highest quality. Sunreef Yachts matched all my requirements in terms of space, catamaran expertise, lifestyle and luxury. It was a no-brainer for me.

Name 3 must-have accessories on your future yacht

**FERNANDO
ALONSO**

The first would be a barbecue, which is a must for me. I really enjoy long evening barbecue parties with friends and family, so this is essential to me. I would also like to have a good sound system as music will be an important part of the lifestyle on board. Lastly, I will certainly have some water toys on board so that we can enjoy both relaxation on the sunpads and sports.

Where will you take your yacht?

**FERNANDO
ALONSO**

I will be probably based in Monaco, where I live. I will cruise in the French Riviera, Corsica and Sardinia. Generally speaking, the south of France and Mediterranean will be my cruising area.

What do you expect from a yacht as an owner?

**FERNANDO
ALONSO**

This will be my first yacht, so I don't have anything specific in mind. I want the yacht to always be ready to go. Sometimes I will go out into the sea spontaneously, so I want to make sure the yacht is reliable. I want a yacht that I can trust. I know the technology on this electric yacht is complex but I can also see the amount of effort Sunreef Yachts is putting into this, so I feel very confident. I am looking forward to spending time on board.

TEAMING UP WITH CHAMPIONS

FOCUSED ON PROMOTING SUSTAINABILITY AND TOP SPORTSMANSHIP, THE EXTREME E IS AN OFF-ROAD RACING CHAMPIONSHIP PUTTING STATE-OF-THE ART ELECTRIC SUV'S TO THE TEST IN REMOTE ENVIRONMENTS ACROSS THE GLOBE TO DRAW ATTENTION TO CLIMATE CHANGE AND ENVIRONMENTAL DAMAGE. AFTER AN ELECTRIFYING INAUGURAL SEASON OF THE CHAMPIONSHIP WITH RACES IN SAUDI ARABIA, SENEGAL, GREENLAND, SARDINIA AND THE UNITED KINGDOM, THE ROSBERG X RACING TEAM, PROUDLY SUPPORTED BY SUNREEF YACHTS, MADE IT TO THE TOP STEP OF THE PODIUM CLAIMING THE EXTREME E CHAMPION'S CROWN. IN THIS ISSUE OF THE SUNREEF NEWS MAGAZINE, WE LOOK BACK AT SOME OF THE MOST MEMORABLE MOMENTS OF THE RACE AND CATCH UP WITH RXR DRIVERS MOLLY TAYLOR AND JOHAN KRISTOFFERSSON.

THE ARCTIC X PRIX

After finishing in first position in the Desert X Prix in Saudi Arabia and the Ocean X Prix in Senegal, the RXR team set out to conquer the tundra of the Arctic. Round three of Extreme E brought the electric-SUV off-road racing series to the Russell Glacier near Kangarlussuaq in Greenland. Team Rosberg X Racing was able to secure one of the five finalist spots at the Arctic X Prix with the finals providing non-stop action from start to finish.

In RXR's third instalment of their #DrivenByPurpose campaign, climate change affecting the Arctic was showcased. Providing four diverse perspectives on the current challenges, were award-winning explorer Sebastian Copeland, rising climate activist Sascha Blidorf, scientist Dr. Alun Hubbard and Inuit Elder Ole Jørgen Hammeken.

THE ISLAND X PRIX

Held at Capo Teulada in the Sulcis-Iglesiente region of the Italian Island of Sardinia, the fourth round of the Extreme E took the championship teams to a demanding track with many rocks and bushes plus cracked and dried riverbeds. The Rosberg X Racing team was a confident victor at the Island X prix with drivers Molly Taylor and Johan Kristoffersson managing to defend P1 in the championship in style after an action-packed weekend of racing.

As part of the #DrivenByPurpose campaign, the RXR and Sunreef Yachts teamed up with the Italian Red Cross to support the local community suffering after devastating wildfires in Sardinia. Sunreef Yachts Eco Ambassador Nico Rosberg along with Sunreef Yachts representatives met with the Mayor of Santu Lussurgiu – a region severely affected by the fires. With contributions made by Sunreef Yachts, RXR and partners, #DrivenByPurpose was able to assist 200 local families with vouchers for food supplies and medication.

18
EXTREME

2021 EXTREME E WINNER #1

THE JURASSIC X PRIX

The Jurassic X Prix Extreme E season-finale in Dorset, UK took place on the muddy tracks of Bovington – in a well-known British Army military base, just off the Jurassic Coastline. Despite finishing fourth in the last race of the Extreme E, RXR drivers Johan Kristoffersson and Molly Taylor proved to be the most consistent front-runners over the entire season and came out on top, securing the championship crown.

The team's #DrivenByPurpose campaign in Dorset focused on the issue of food waste and hunger. In collaboration with FareShare, the RXR accumulated funds to donate 30 000 hot meals over the wintertime.

CATCHING UP WITH THE EXTREME E CHAMPIONS

In the midst of a dynamic championship finale in Dorset, RXR drivers Molly Taylor and Johan Kristoffersson met with the Sunreef News Magazine team for an exclusive q&a.

Q & A *exclusive*

What is special about the Extreme E?

It's incredibly special as it's a brand new motorsport series. It has never been done before – we take 550 HP all-electric SUV's and travel to remote parts of the world that have been impacted by climate change. We race but we also take a closer look at the issues that those areas are facing and raise awareness on climate issues.

I think that the electric SUV's and remote race locations make it very special. Locations are varied, so you never know what to expect. Also, the fact that you share your car with another driver, and the diversity of male-female teams makes it interesting and different in comparison to anything I've done before.

What is the #DrivenByPurpose campaign?

The Driven By Purpose campaign that we run at RXR is really about leaving a positive impact everywhere we go and contributing to positive change in every location. It's also about sharing knowledge and awareness of what we can do to live a more sustainable life at home.

We try to leave every race location in a better state than when we arrived. Everywhere we go, we support charities and various local initiatives in their work.

What was your favorite location of the Extreme E?

It's hard to pick a favorite location, as they all have been special for so many reasons. I think Saudi Arabia was exceptional because it was our first race and we did not know what to expect. Also going to the glaciers in Greenland was definitely a highlight for me.

My favorite location was Greenland. It's an amazing place that I would not be able to visit without the Extreme E. It was a bit more chilly than the other events and not as wet as in the UK!

What was the biggest challenge of the Extreme E?

There are many challenges at the Extreme E. I think the biggest of them is that we don't know what the tracks are going to be like. We really are learning on the fly. Having the ability to adapt quickly is crucial. When we get to the events, we see the tracks just before we drive and we only get a few laps to prepare. It's critical to get it right in a short space of time.

I think the biggest challenge is to adapt quickly to the very varied tracks. Otherwise, the challenge is also the car itself, as it's much bigger than anything I've driven before.

the superyacht avant-garde

100 Sunreef

TAKING MOTOR CATAMARAN DESIGN TO THE NEXT LEVEL, THE 100 SUNREEF POWER IS A TRANSATLANTIC LUXURY CRAFT BUILT TO OFFER UNMATCHED COMFORT AND A UNIQUE CRUISING EXPERIENCE. HULL NUMBER ONE OF THE SHIPYARD'S LATEST SUPER CAT MODEL IS A HIGHLY-CUSTOMIZED YACHT WITH A POWERFUL PRESENCE AND A STRIKING HULL FINISH COMBINING DARK GREY AND ROSE GOLD.

Deep Power

Photography: Bartłomiej Chęcinski, Maciej Walczuk
Models: Katarzyna Szewalje, Ramayana Souza

The relaxation area of the main deck comprises a large lounging space to portside with a drop down 55" TV and a custom-designed drinks bar to starboard. Towards the bow part of the saloon, the yacht's galley offers restaurant quality amenities and access to a cold room below decks. The main deck also houses a well-equipped gym looking out over the ocean and leading to the vast bow terrace.

With natural oak veneers, rose quartz, brass accents and custom-built cabinetry, the interior décor of the yacht reflects the owners' liking for classic design. This homelike interior styling is continued in all the catamaran's staterooms.

Guest accommodation for ten is spread across 5 large en suite cabins. Located in the port hull, the master suite features a king-size bed and a relaxation area with ocean view. One of the suite's stand-out features is the generous master bathroom with classic black and white tiling. The owner's cabin neighbors one of the guest rooms which offers a double bed, voluminous storage, an en suite bathroom and a vanity desk.

The starboard hull houses three guest cabins offering the same level of comfort. With the 100 Sunreef Power using an ultramodern, energy-saving air-conditioning system, the yacht is able to provide air-conditioning throughout the whole night without using the generators.

The megayacht flybridge of the 100 Sunreef Power offers extreme comfort with plenty of relaxation areas, including a bar and a large dining table. Guests can also enjoy baths in the custom-built spa pool flanked by large sunpads. The area can be transformed into an outdoor cinema with a high-end audio system, a retractable projector and screen.

The yacht's stern cockpit spans over the entire 13.5m beam of the catamaran offering a large dining space, a daybed, a wet bar and access to the day head.

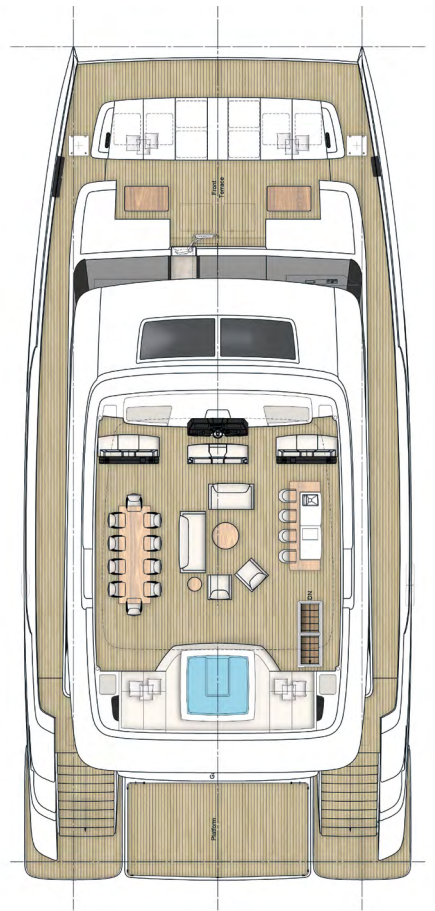

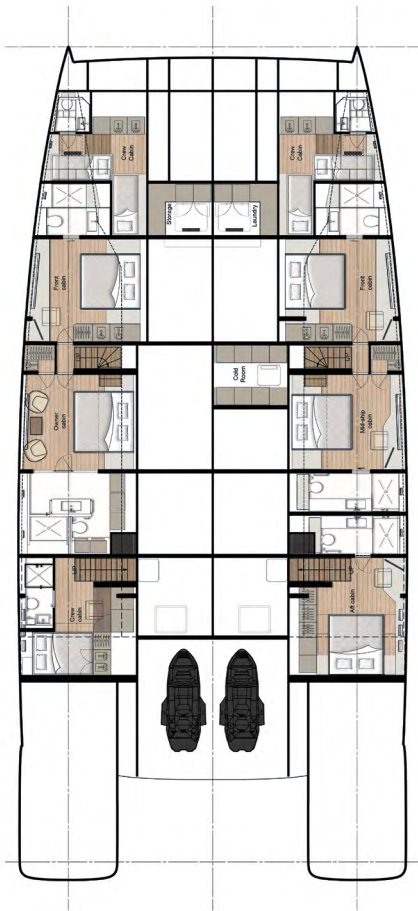

The 100 Sunreef Power also boasts a large aft hydraulic platform and a voluminous garage concealing two three-seater jet skis, a refueling station and plenty of storage for water toys. The 100 Sunreef Power provides comfortable crew accommodation in three crew cabins, two located in the bow part of the hulls and one to the aft.

“

Sunreef Yachts is the only shipyard in the world to inject superyacht quality into multihull architecture. Our yachts are different from the catamarans you see on the market. In the world of multihull boats, Sunreef Yachts are an exception. Thanks to projects such as the 100 Sunreef Power, we are gaining ground on the monohull-dominated superyacht scene, because today, more and more owners realize that catamarans make fantastic luxury yachts.

DESIGN	

A sleek, modern catamaran yacht with a dark grey hull and a white upper deck is shown on the water. The yacht has a long, narrow profile with a series of rectangular windows along its side. The background is a bright, clear sky with a few wispy clouds. The water is a deep blue with gentle ripples. The overall aesthetic is clean and futuristic.

Sunreef 43M ECO

The green superyacht of the future

SUNREEF YACHTS PROUDLY PRESENTS THE ULTIMATE ECO SAILING CATAMARAN – SUPERYACHT. WITH UNLIMITED RANGE AND AN UNPARALLELED LEVEL OF COMFORT, THE SUNREEF 43M ECO IS THE TRUE EXPRESSION OF SUSTAINABLE YACHTING. THIS AUTONOMOUS 43M MULTIHULL IS FULLY CUSTOMIZABLE AND OFFERS THE BEST EMISSION-FREE CRUISING EXPERIENCE.

Harnessing energy from the elements and using state-of-the-art technologies, the shipyard's latest eco-friendly sail superyacht represents a new approach to green yachting. The Sunreef 43M Eco's electric propulsion comes from two 200 kW engines. This will allow for e-motoring at 11 knots of cruising speed and a top speed of 14 knots.

The Sunreef 43M Eco will feature Sunreef Yachts' in-house developed photovoltaic system, generating up to 50 kWp. The proprietary solar power system will be built into the composite structures of the yacht including hull sides, superstructure, bimini, boom and mast.

GENERAL CHARACTERISTICS SUNREEF 43M ECO

The yacht's design incorporates a unique alfresco lounging and dining space in the aft. With the large hydraulic platform lowered and two fold-out bulwark terraces open, the Sunreef 43M Eco creates a vast walkaround beach club. The relaxation area can be entirely customized and can welcome a drinks bar, gym or a generous storage room for water toys and diving gear. Underneath the aft cockpit, the yacht's garage transports two jet skis.

This ultramodern sustainable craft will be able to welcome up to 12 guests in the most luxurious conditions. The interior décor will incorporate a variety of sustainably-sourced materials and fabrics. The Sunreef 43M Eco will be also equipped with an energy-saving air-conditioning system.

SUPER CATAMARANS ON THE RISE

Another 100 Sunreef Power commissioned

SUNREEF YACHTS HAS BEEN COMMISSIONED TO BUILD A SECOND 100 SUNREEF POWER SUPERYACHT. BOASTING UNRIVALED LIVING SPACE AND UNIQUE CUSTOM FEATURES, THIS ULTRAMODERN CATAMARAN WILL OFFER TRANSATLANTIC AUTONOMY AND THE UTMOST OF COMFORT FOR LONG VOYAGES IN LUXURY.

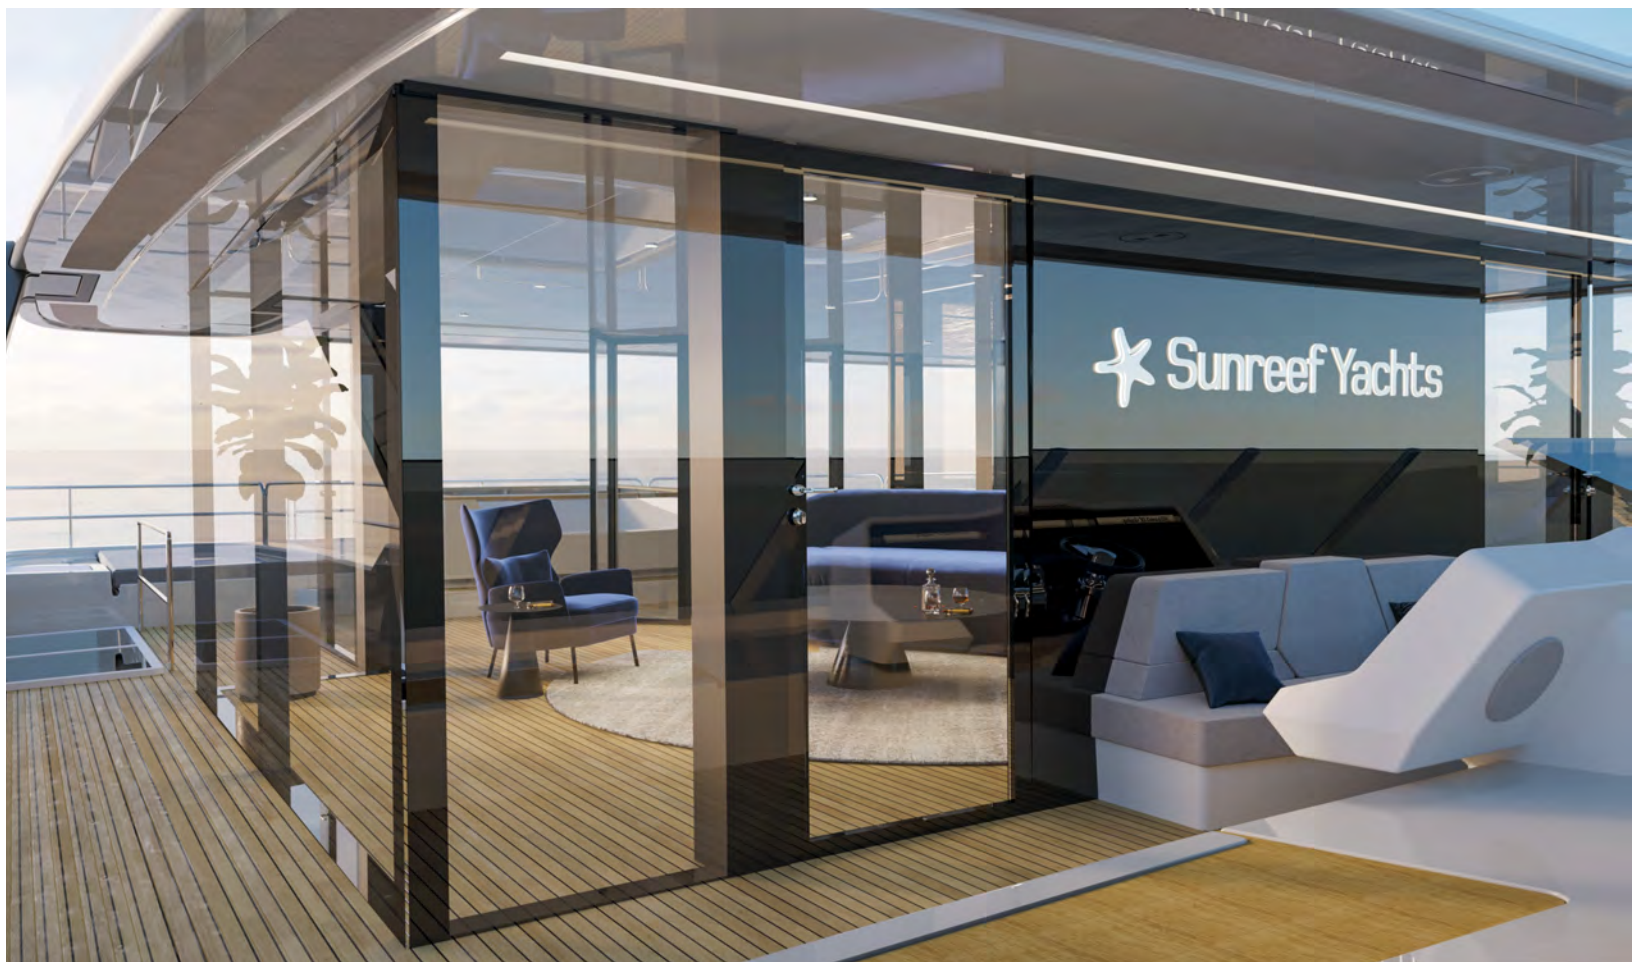

Generous accommodation across 6 cabins will be provided for up to twelve. The custom-tailored layout includes a spectacular master suite on the main deck. Created upon the owner's request, the master stateroom will be positioned in the bow part of the deck, offering ocean views and private access to the full-beam bow terrace. The main deck will also boast ample dining and lounging areas as well as a custom-built drinks bar.

Upon the owner's request, the 100 Sunreef Power will feature an enclosed skylounge on the flybridge, ideal for all-weather entertaining and lounging with spectacular views at sunrise and sunset. The flybridge will also welcome an additional exterior relaxation area with sunpads and a large sun-awning.

The yacht's vast aft cockpit will feature a hydraulic swim platform as well as a garage accommodating two personal watercrafts and a refueling station along with storage for water toys. With a 13.5m beam, the yacht's stern cockpit will provide generous space for dining and relaxing with ocean views.

The catamaran's propulsion will come from two 1300 HP engines, providing solid performance and top fuel efficiency.

A September to Remember

Cannes Yachting Festival & Monaco Yacht Show

AFTER A FIRST HALF OF 2021 THAT HAS SEEN QUITE A FEW BOAT SHOW CANCELLATIONS, THE LONG-AWAITED SEPTEMBER SHOWS REAPPEARED ON THE CALENDAR OF YACHTING EVENTS. THIS ISSUE OF THE SUNREEF NEWS MAGAZINE TAKES A LOOK BACK AT THE MOST MEMORABLE MOMENTS OF THE CANNES YACHTING FESTIVAL AND MONACO YACHT SHOW.

CANNES YACHTING FESTIVAL: A WAVE OF SUCCESS FOR SUNREEF YACHTS

With not less than five catamarans on display including two exclusive premieres, Sunreef Yachts' showcase at the Cannes Yachting Festival 2021 was a spectacular success crowned with two prestigious awards. The team finalized five build contracts including one for an electric Sunreef 80 Eco sail catamaran, two Sunreef 60, one Sunreef 50 and a 70 Sunreef Power motor yacht.

Displayed for the first time, the 60 Sunreef Power motoryacht attracted a lot of attention from the visitors. Voted as Best Power Driven Catamaran at the World Yachts Trophies 2020, this 60-footer is a perfect combination of space, autonomy and hi-tech for cruising worldwide in ultimate luxury. The 60 Sunreef Power was displayed in the Vieux Port alongside the 80 Sunreef Power Kokomo.

In the sail yacht section of the show in Port Canto, the Sunreef 70 Anima has made her official international debut. Recognized for her unique combination of smooth sailing and luxury, the Sunreef 70 stands out with impressive living space, unrivalled comfort and smart design. The Sunreef 70 Anima was on display together with the sailing catamarans Sunreef 80 and Sunreef 50.

Sunreef Yachts' 2021 Cannes showcase was also a great opportunity to host the annual breakfast and briefing with journalists from all over the world. The team also organized a series of sea trials which included a special guest appearance by Sunreef Yachts Eco ambassador Nico Rosberg.

MONACO YACHT SHOW: AN EXCLUSIVE CATAMARAN SHOWCASE BY SUNREEF YACHTS

The Monaco Yacht Show gathered over 440 exhibitors in the Port Hercules for the world's premier superyacht event. With Rafael Nadal's 80 Sunreef Power Great White on display as well as the Sunreef 80 sail catamaran, Sunreef Yachts enjoyed an exceptional Monaco showcase.

Presented for the very first time, the 80 Sunreef Power Great White quickly turned out to be one of the show's must-see yachts. The luxury motoryacht attracted a lot of visitors, including a memorable visit by HSH Prince Albert II stopping by to meet with the yacht's owner.

For the highlight of the event, Sunreef Yachts brand ambassadors Rafael Nadal and Nico Rosberg joined the team in the Port Hercules. In the midst of a busy show, Sunreef Yachts hosted the Sunreef Ambassadors' Cup – a thrilling table tennis clash between the two ambassadors. Held on board Rafael Nadal's catamaran Great White, the game turned out to be a real showstopper.

While the company's brand ambassadors were competing in the Sunreef Ambassadors' Cup, RXR drivers Molly Taylor and Johan Kristoffersson joined the team on board the Sunreef 80 for an exciting challenge "From Divers to Sailors", testing their focus and knowledge of the yachting world.

A GEM OF SHOWCASE

AT FORT LAUDERDALE INTERNATIONAL **BOAT SHOW**

SUNREEF YACHTS MADE A STRONG RETURN TO THE 2021 FORT LAUDERDALE INTERNATIONAL BOAT SHOW, THE WORLD'S LARGEST IN-WATER BOAT SHOW, THIS PAST OCTOBER. ON SHOWCASE WAS THE SHIPYARD'S AWARD-WINNING MODEL - SUNREEF 80 BUNDALONG.

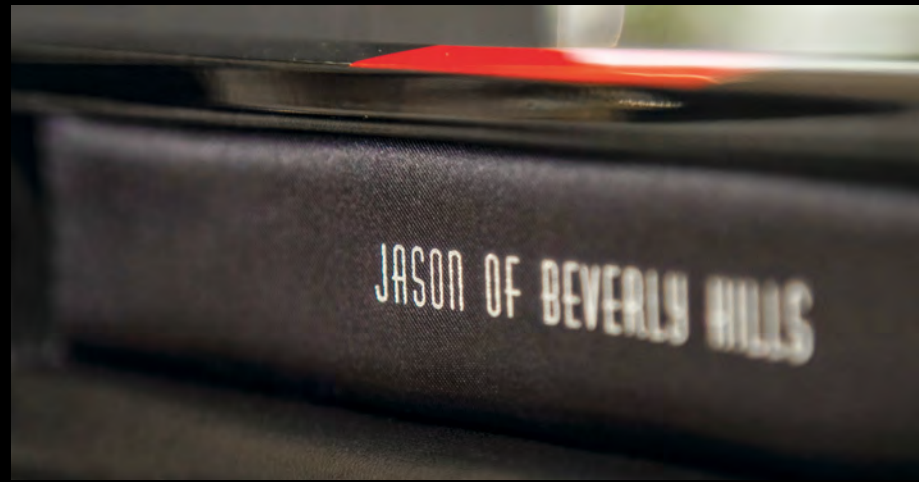

Recognized in Forbes as one of five “Yachts to Watch” at the show, visitors lined up for the opportunity to step aboard the impressive sailing catamaran and experience what 3700 plus square feet of living space feels like. Guests were also treated to an exclusive display of exquisite diamond pieces, including the custom starfish Sunreef Yachts logo pendant, from bespoke jewelry designer Jason of Beverly Hills.

Owned by the Marine Industries Association of South Florida and produced by Informa Markets, the Fort Lauderdale International Boat Show offers the largest in-water presence of boats and marine exhibits. The five-day outdoor event showcases more world and U.S. debuts than any other boat show in the country.

Sunreef Yachts

ART BASEL MIAMI BEACH, HELD EVERY DECEMBER - EXCLUDING LAST YEAR WHICH WAS VIRTUAL - IS ONE OF THE BUSIEST TIMES OF THE YEAR, GATHERING ART LOVERS AND DESIGN AFICIONADOS TO THE "MAGIC CITY" WHERE THE SUNREEF AMERICAS REGIONAL OFFICE IS BASED. AFTER PARTICIPATING IN 2019, SUNREEF WAS EXCITED TO REJOIN THE 2021 EDITION AND MAKE A SPLASH WITH FAMED LOS ANGELES POP ARTIST SKYLER GREY.

To celebrate the collaboration and premiere of Grey's Mickey Lagerfeld collection of acrylic sculptures, Sunreef Yachts hosted an exclusive champagne reception at Miami hotspot Kiki on the River. Held between golden hour and sunset, where picturesque views of the city were abundant, the unforgettable evening brought together a select group of Sunreef clients and art collectors, along with fashion and entertainment's finest.

Speaking on the collaboration with Skyler Grey for Art Basel, Francis Lapp, Founder and President of Sunreef Yachts commented that "yacht design is a complex combination of creativity and engineering. Working with an artist is for us a way to take a fresh look at what we do. A change of perspective is vital, especially when you want to keep innovating. Pioneering concepts can only emerge once you go off the beaten path and use your imagination."

 2. Mahtab Forouzandeh, Catalina Cortez, Darren Henn
 3. Catalina Cortez, Jesse Mancha, Marta Sledziewska, Robert Riva,
 Marta Adamska, Paulina Zelobowska, Darren Henn, Stephanie High

Sklyer Grey is an American street artist best known for his colorful pieces that depict iconic cartoon characters like Mickey Mouse and Popeye juxtaposed against fashion brands such as Chanel and Hermès. Citing Jean-Michel Basquiat and Keith Haring as artistic influences, Grey has developed his own distinctive style and artistic concept, working in mixed media, spray paint, and acrylic. Featured in *Forbes* “30 Under 30”, Grey created his first professional piece, Queen Amy Winehouse (2012), at the age of 11 and is the youngest artist to have his art showcased in museums and art fairs across the globe. Grey also gained recognition as Lamborghini’s only official artist, for which he was commissioned to create a pop-art-inspired Aventador S that he hand-painted at the company’s workshop in Sant’Agata Bolognese, Italy.

Holistic Hospice and Care Center “eMOCja”

A look back at one year of care

SUPPORTED FROM THE VERY BEGINNING BY SUNREEF YACHTS, THE HOLISTIC HOSPICE AND CARE CENTER “eMOCJA” HAS SEEN A VERY BUSY FIRST YEAR OF ACTIVITY IN GDANSK, POLAND. THE CENTER’S TEAM OF SPECIALISTS PROVIDES PROFESSIONAL HELP TO BOTH ADULTS AND CHILDREN SUFFERING AFTER THE LOSS OF A LOVED ONE.

I am indescribably grateful for the support we receive from Francis Lapp, Founder and President of Sunreef Yachts. It is largely thanks to his funding that we are able to help such a huge number of people. Our work now also has an international impact, as people from abroad come to seek help at our center.

– Elwira Liegman
Director of „eMOCja”

Throughout their first year, “eMOCja” conducted over 1000 individual psychological consultations. Furthermore, the hospice organized many therapeutic events for its patients. As grief can affect all of life’s aspects, the Holistic Hospice and Care Center “eMOCja” hosts group walks, lectures, meetings, art and music therapy to offer the most comprehensive care experience, with emphasis on both body and spirit. In 2021 they held around 80 such meetings. The “eMOCja” Centre supports grieving people on a mission to “leave no one alone in the time of illness and mourning”. Every help provided by the Center is free.

The „eMOCja” Center is also home to a hospice for terminally ill children – the Pomorze Dzieciom Hospice and of a perinatal hospice and palliative care center - the Tulipani Hospice.

ACTIVE HYDRATION
WITH 9 ESSENTIAL AMINO ACIDS

[HYPE.COM](https://www.hype.com)

CLIMATE CHANGE, SPECIES EXTINCTION AND DEFORESTATION ARE THE MOST PRESSING ENVIRONMENTAL THREATS TODAY. CHANGING OUR EVERYDAY HABITS CAN CONTRIBUTE TO A POSITIVE CHANGE AND HELP OUR PLANET BECOME A HEALTHIER PLACE. THE SMALLEST GESTURES, IF APPLIED EVERY DAY, CAN HAVE THE MOST IMPORTANT IMPACT.

This is why together with Sunreef Yachts Eco brand ambassador Nico Rosberg, the company proudly joined Meat Free Monday - an inspiring initiative launched by Paul McCartney that encourages people worldwide to reduce meat consumption to help the environment and have a more sustainable lifestyle.

The Meat Free Monday campaign encourages people across the globe to reduce meat consumption. One meat-free meal a week can truly make a difference. By introducing this small change to our diet, we can all help battle climate change while enjoying a healthier life.

To inspire people to join the campaign, Sunreef Yachts asked one of Europe's top chefs Tomasz Koprowski to prepare 4 plant-based culinary creations to be presented in a new video series. Members of various company departments prepared delicious meat-free dishes in each episode to promote the campaign. The video series mixing cooking and sustainability is named MARINADE: Meat Free Monday Edition.

One day a week – that is all it takes to shape a greener future. Have a positive impact on our planet and your health today and join the Meat Free Monday campaign!

HOW TO BOOK A CHARTER

**YOU ARE
ONLY 8
STEPS
AWAY
FROM
BOOK-
ING YOUR
CHARTER**

A LIGHT SEA BREEZE IN YOUR HAIR AND PLEASANT SUNSHINE ON YOUR FACE SOUND LIKE A DREAM COMING TRUE? HOLIDAYS IN A HOTEL SEEM A BIT TOO STATIC, BUT YOU STILL WANT TO ENJOY THE HIGHEST QUALITY SERVICE? SEEMS THAT CHARTERING A LUXURIOUS YACHT IS THE WAY TO GO!

Photography: Relentless Yachting

1. **Contact your yacht charter broker**
2. **Think of the group composition – are you taking any friends and how many people in total will be coming**
3. **Determine the dates**
4. **Choose the location**
5. **Estimate the budget**
6. **Review the offer presented by the broker and choose the most suitable option**
7. **Review and sign the charter agreement, send it to your charter broker. Please wait until you get a countersigned copy back – the contract must be signed by all parties**
8. **Send the deposit to the designated account**

CONGRATULATIONS, you have successfully booked a charter!

Don't worry if you are still not sure about the details, our specialists at Sunreef Yachts Charter will be happy to assist at every step of the booking process.

We are a MYBA (The Worldwide Yachting Association) member with vast experience and will provide you with a wide range of options.

INTERVIEW WITH CAPTAIN ELIOT JOHNSTON

PROUD HELMSMAN OF 60 SUNREEF POWER OTOCTONE 60, CAPTAIN ELIOT JOHNSTON HAS BEEN WITH THE YACHT FROM THE VERY BEGINNING - OVERSEEING THE CONSTRUCTION PROCESS AND HER LAUNCH, TAKING HER FOR HER MAIDEN VOYAGE AND OPERATING HER IN THE MEDITERRANEAN. IN AN INTERVIEW FOR SUNREEF NEWS MAGAZINE, HE TALKS ABOUT HIS EXPERIENCE AND WALKS US THROUGH THE FEATURES OF A PERFECT CHARTER YACHT.

Photography: Bartłomiej Chęcinski, Maciej Walczuk

Please tell us about yourself and your experience?

Always passionate about the maritime world, I've been expanding my knowledge of the yachting industry for the past 12 years. I used to work in luxurious hotels and restaurants in Cannes which helped me to get into high-class service environment and understand its nuances. Since I started as a deckhand on a superyacht, it became clear to me that this passion will grow into profession. My involvement into every aspect of running a yacht evolved into the set of skills required to become a Captain.

What makes OTOCTONE 60 unique in your opinion?

The yacht's large interior and exterior living spaces give a feeling of a significantly bigger boat than expected from a 60ft vessel. I had an opportunity to be actively involved in the production process of OTOCTONE 60 already in the shipyard. Having impact on the final design, materials used, decorations, as well as technical solutions available onboard that all in all create the most comfortable and welcoming atmosphere for passengers was a great experience. I am sure that the work put into the designing process is appreciated by the guests on board.

**What is a dream destination of yours
where you would like to see OTOCTONE 60?**

Corsica, the Mediterranean jewel, remains the dream destination for OTOCTONE 60. The diversity of landscapes, the incredible number of small bays and coves with crystal clear waters and the old Corsican cities like Porto Vecchio or Bonifacio that deserve to be seen, make Corsica the best choice.

What makes OTOCTONE 60 a great choice for charterers?

OTOCTONE 60 is a great option for many reasons: the stability and comfort of the boat while cruising or anchoring is beyond compare, there is a rich selection of water toys to choose from, including 2 seabobs, an electric foil, big donuts for kids, fishing and snorkeling gear, wakeboard, water skis (mono and duo). All of this managed by a professional and experienced crew - a Stewardess with professional hospitality background and 10 years of experience in the yachting industry, a Chef, who travelled to every part of the world, learning and mastering many cuisines as well as local flavours and, of course, myself.

Can you explain what the role of a Captain is when there are guests on board?

Security of the passengers is on top of the list. The yacht has to be maintained in perfect condition in order to avoid any possible inconvenience that might interfere with the successful running of the charter. Moreover, Captain must be familiar with cruising area, activities ashore and high-quality local restaurants to be able to handle every request from the guests.

What is the most rewarding part of your job?

The most rewarding part of the job is the client's satisfaction, in other words the successful completion of the charter. We appreciate repeat clients, who keep booking trips with us, with whom we share the passion for the sea and enjoy the hidden gems of the area.

COMMERCIAL COMPLIANCE

How to operate a commercial yacht?

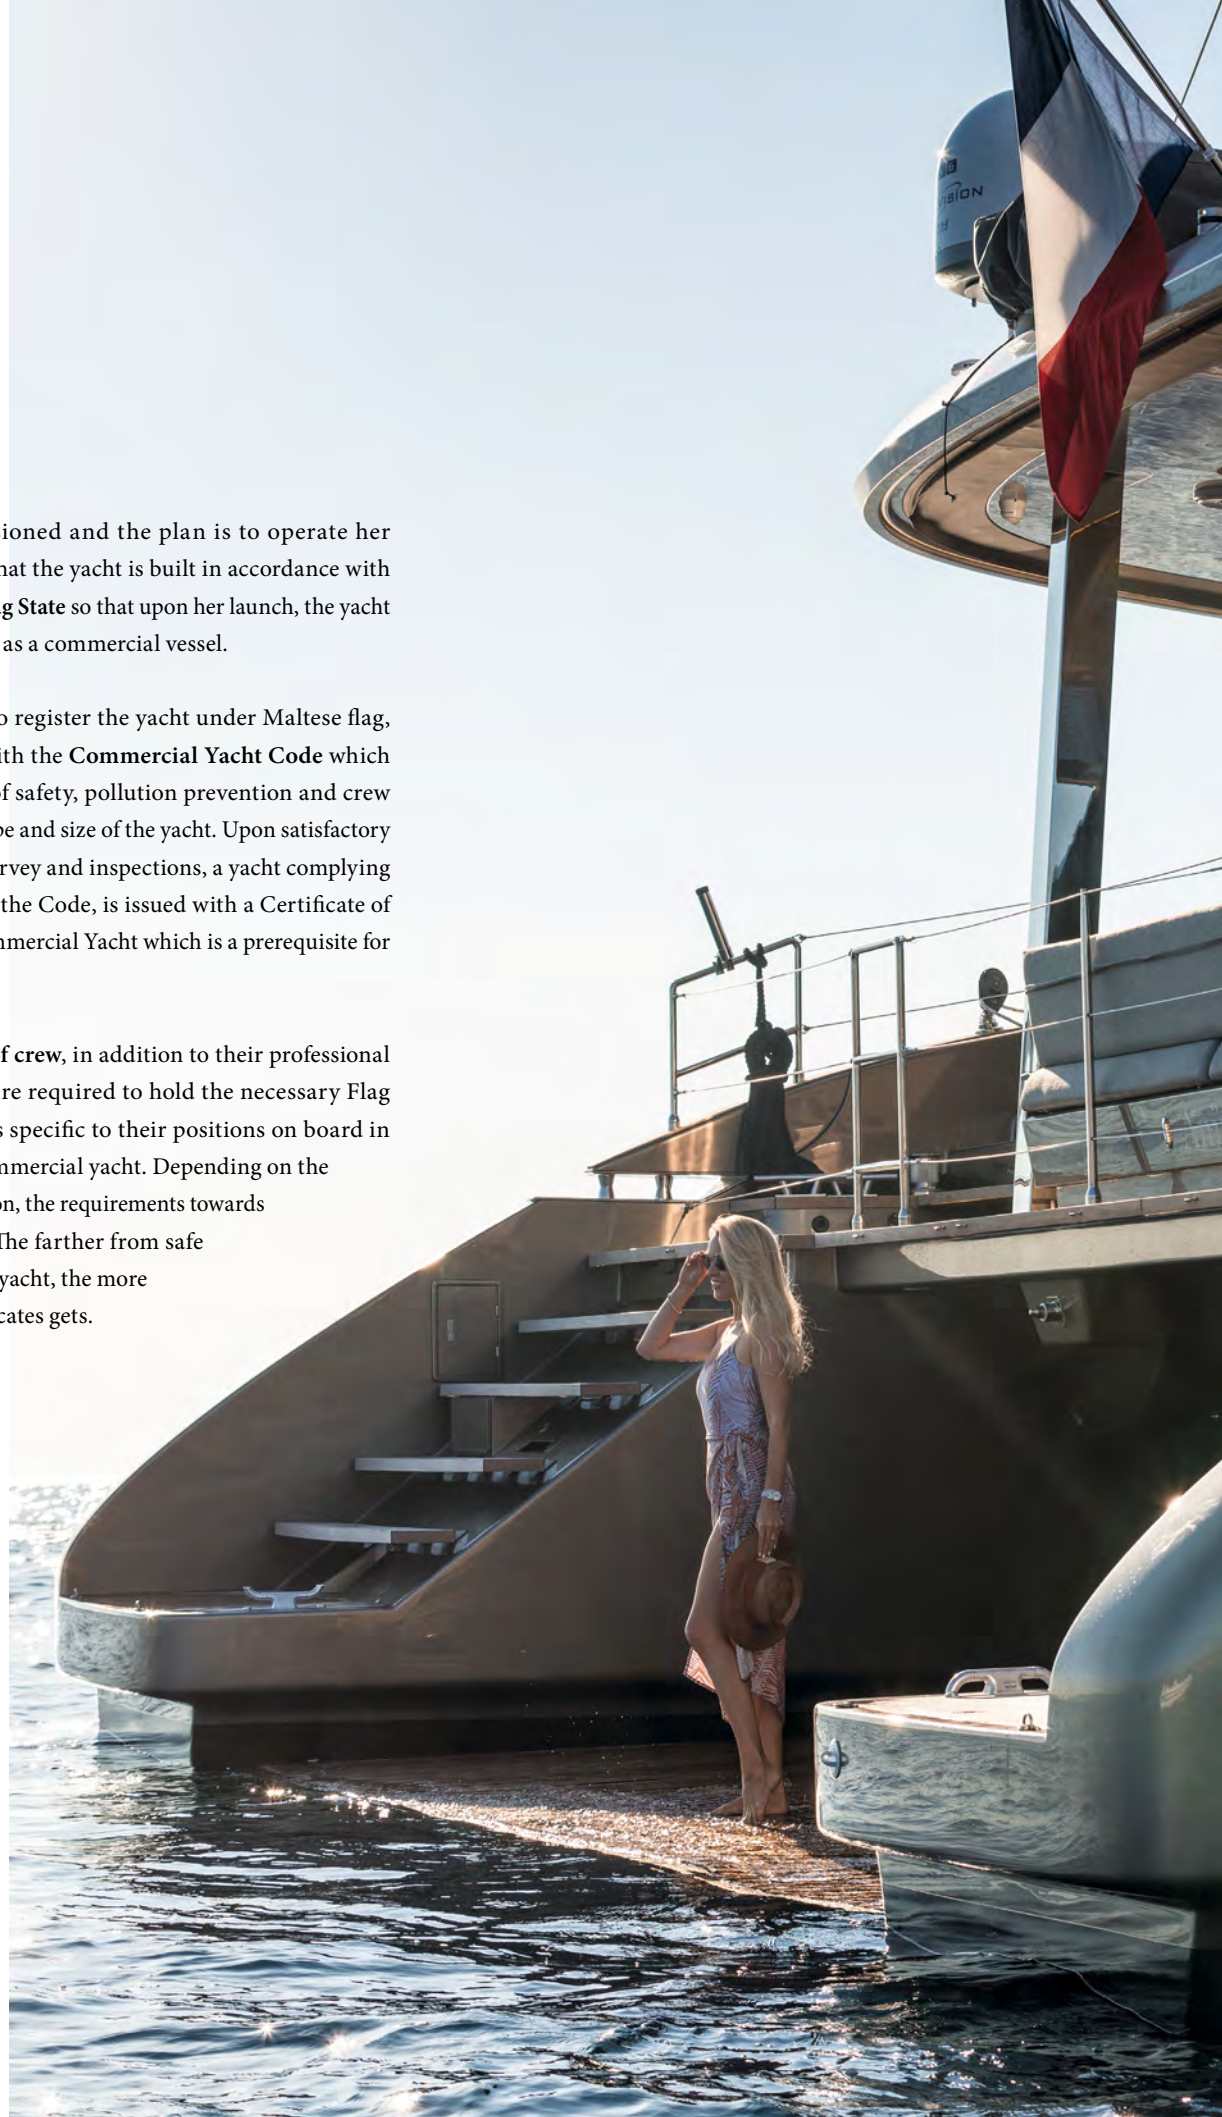

CHARTER KNOWLEDGE FOR (FUTURE) OWNERS

THERE ARE SEVERAL LEVELS OF COMMERCIAL COMPLIANCE THAT NEED TO BE TAKEN INTO CONSIDERATION WHEN OPERATING A CHARTER YACHT. IT STARTS WITH THE YACHT'S CONSTRUCTION AND REGISTRATION, FOLLOWED BY SELECTION OF APPROPRIATELY QUALIFIED CREW AND COMPLIANCE WITH NATIONAL LAWS AND REGULATIONS FOR COMMERCIALY OPERATED YACHTS IN A CHOSEN AREA.

Once the yacht is commissioned and the plan is to operate her commercially, it is essential that the yacht is built in accordance with requirements of the chosen **Flag State** so that upon her launch, the yacht can be successfully registered as a commercial vessel.

For instance, if you choose to register the yacht under Maltese flag, the yacht needs to comply with the **Commercial Yacht Code** which sets the required standards of safety, pollution prevention and crew welfare, appropriate for the type and size of the yacht. Upon satisfactory completion of the required survey and inspections, a yacht complying with the standards set out in the Code, is issued with a Certificate of Compliance to Trade as a Commercial Yacht which is a prerequisite for commercial registration.

When it comes to **selection of crew**, in addition to their professional experience and skills, they are required to hold the necessary Flag State approved qualifications specific to their positions on board in order to be employed on a commercial yacht. Depending on the yacht's flag and area of operation, the requirements towards crew certification may vary. The farther from safe haven you plan to operate the yacht, the more constraining the list of certificates gets.

Additional constraints and requirements are caused by the fact that whenever the yacht holds a commercial status, whether or not commercial activity is conducted at a given time, she is required to comply with the requirements of the Flag State and local regulations applying to commercial vessels, including **manning requirements**.

This means that at any point in time, whether the yacht is on a charter or is being delivered across the Atlantic with only professional seafarers on board, she needs to be equipped and the crew need to be qualified so as to **carry passengers**. On a case by case basis, yacht registries may issue exemptions for longer transfers, such as the Atlantic crossing, however, there is no guarantee that the exemption is granted each time.

Another level of commercial compliance are national laws applying to yacht's **charter activity** in a chosen country. As a rule, the Mediterranean (the term used to cover the main European charter destinations, including Croatia and Greece) is the most complex region for operating commercial yachts due to application of VAT (different in each state) on yacht charter services. Each EU state has its own charter regulations, their own set of rules which need to be followed by owning companies, yacht managers and captains. Whenever a plan is made to operate in any EU country for the first time, formalities need to be taken care of well in advance. The time for VAT registration alone ranges from 2 days to several weeks depending on the country of application.

Advance planning is also required for operating a commercial yacht in any non-EU country, be it in Europe, the Caribbean or more exotic destinations. **Local charter regulations** towards the yacht's equipment and certification, her crew and charter itinerary must be taken into consideration when planning a booking calendar as well as owners' use.

With all of the above in mind, it comes with no surprise that **commercial compliance** issues are best managed by a yacht manager experienced in operating commercial yachts in various destinations. It is the yacht manager's responsibility to make sure that the yacht's commercial status is obtained and properly maintained with no disruption for the owner's use or charter calendar. Assistance provided by a **yacht management** company in scope of commercial compliance services also includes crew training on relevant VAT related matters and charter documentation, advice on and verification of records required to comply with commercial exemption rules in a given state, consulting local VAT agents on charter related matters, coordinating VAT calculation and payments to local tax offices.

With a fleet of commercial yachts under management in the most popular charter destinations, **Sunreef Yachts Charter** team can be relied on for any commercial compliance aspects at any stage of the yacht's commercial operation.
