S/Y DAHLAK JOINS PERINI NAVI FLEET

S/Y DAHLAK IS THE LATEST LAUNCH in the expanding Perini Navi fleet. The 38-metre sloop was given the name after the Red Sea archipelago where her new owner sailed as a boy.

With hull lines by Philippe Briand and built entirely on site at the Group's Picchiotti shipyard in La Spezia, Italy, the sailing yacht is a sister ship to the award-winning P2 launched in 2008.

Dahlak and P2 share the same rig configuration and basic naval architecture, including a near-vertical bow to stretch the waterline length to the maximum and a high-aspect ratio sail plan for fast upwind sailing.

But there also are some key differences. The new yacht is constructed entirely of Sealium aluminium alloy and boasts several technical innovations including a Lithium polymer marine bus system providing 'clean' power, three semi-automatic electric captive winches engineered by Perini Navi and a carbon fibre furling boom offering performance and safety in all sea conditions.

The interior layout offers accommodation for up to eight guests in a full-beam owner's stateroom and two ensuite cabins. The galley has been extended by one frame and includes a serving hatch, while the deckhouse dining and seating area upholstered in fresh cotton fabrics by Zimmer+Rohde is now separated from the navigation station by the waist-height joinery. The crew quarters can accommodate up to six crew in three ensuite cabins.

SUNREEF INTRODUCES SUNREEF SUPREME

LUXURY CATAMARAN MANUFACTURER Sunreef Yachts is introducing the Sunreef Supreme – a superb series of sailing and power catamarans with impressive living spaces and innovative design solutions.

Sunreef Yachts' latest concept was created to respond to a growing demand for more personalised, comfortable and technically advanced units. The Sunreef Supreme is an audacious line of yachts and superyachts designed to become the world's most comfortable and

spacious range of lifestyle-oriented boats. This game changing concept of power and sailing catamarans premiered at the recent Singapore Yacht Show (Apr 7-10).

The first unit presented from the range is the Sunreef Supreme 68, a sailing catamaran with a total living space equaling almost 300sqm, offering the surface of a superyacht on a unit below 24-metres.

Best Custom Built Yacht

Benetti, 11-11, Italy

“Benetti is delighted to have won the Asia Boating Award for the Best Custom Built Yacht. *11.11* is an exceptional yacht and she truthfully deserves this award. She has a distinctive hydrodynamic plumb bow which enhances fuel efficiency as she powers through the water, two owner’s cabins and she is certainly an eye-catching boat.”

– Benetti Asia General Manager Nizar Tagi
