The Sunreef Supreme Range embodies a very specific philosophy of yacht creation. It is an audacious line of yachts and superyachts designed to become the world's most comfortable and spacious range of lifestyle-oriented boats. The Sunreef Supreme 68 Power is a 68 ft power catamaran with a total living space of 302 sqm

offering the surface of a superyacht on a unit below 24 m. The Sunreef Supreme's architecture revisits the way catamarans have been so far designed. A new, radical concept of the superstructure allows to keep the saloon and exterior deck on the same level. As a result, the Sunreef Supreme 68 Power boasts an enormous main room surrounded with floor to

ceiling glass - a smooth, seamless space opening onto the cockpit and giving direct access to the deck through sliding doors on both sides of the yacht. The exterior and interior surfaces of the boat merge into one panoramic lounging and dining area. The design of the main deck and hulls offers a total versatility in the possibilities for a smart, individually tailored layout matching every single

Owner's lifestyle. With an infinite choice of materials for the décor of the saloon, cabins and bathrooms, each Sunreef Supreme 68 Power reflects her Owner's style and personality. The Sunreef Supreme 68 is equipped with an aft garage - a truly revolutionary feature on a catamaran under 70 feet. This voluminous space allows to conveniently store a 5m tender, up to two jet-skis, diving gear and numerous water toys. The garage door, when lowered, creates a large aft platform that is perfect for water sports.
