Celebrating Two Decades of excellence

The world's leading manufacturer of custom-made luxury catamarans, Sunreef Yachts, celebrated its 20th anniversary in Monaco last September, in conjunction with the renowned Yacht Show.

The Polish shipyard held a by-invitation-only reception at the Yacht Club de Monaco and invited partners, customers and ambassadors to a unique evening celebrating innovation and excellence.

During the night, the company shared some exclusive news, as well as took a look back at its biggest achievements during this time period.

The event attracted numerous guests from all over the world, including prominent figures such as former Polish president and Nobel Peace Prize laureate Lech Walesa, sustainability entrepreneur Nico Rosberg or professional explorer Mike Horn, making this Anniversary an unforgettable one.

Moreover, during the Monegasque week, Sunreef showcased for the very first time the electric Sunreef 80 Eco Marie-Joseph, alongside the Sunreef 80 Power Kokomo.

The electric 80-footer was a spectacu-

lar show stopper, hosting several VIP viewings, including an official visit by HSH Prince Albert II.

The whole SuperyachtOne team congratulates Sunreef Yachts on reaching this important milestone, wishing further relevant successes.
